# Shire of Shark Bay

## **Minutes of the Ordinary Council Meeting held on** 29 October 2014

Birds Eye View Monkey Mia Jetty - October 2014

#### **DISCLAIMER**

No responsibility whatsoever is implied or accepted by the Shire of Shark Bay for any act, omission or statement or intimation occurring during Council/Committee meetings or during formal/informal conversations with Council members or staff.

The Shire of Shark Bay disclaims any liability for any loss whatsoever and howsoever caused arising out of reliance by any person or legal entity on any such act, omission or statement or intimation occurring during Council/Committee meetings or discussions. Any person or legal entity who acts or fails to act in reliance upon any statement, act or omission does so at that person's or legal entity's own risk.

In particular and without derogating in any way from the broad disclaimer above, in any discussion regarding any planning application or application for a licence, any statement or intimation of approval made by a member or officer of the Shire of Shark Bay during the course of any meeting is not intended to be and is not to be taken as notice of approval from the Shire of Shark Bay.

The Shire of Shark Bay advises that no action should be taken on any application or item discussed at a Council meeting and should only rely on **WRITTEN ADVICE** of the outcome and any conditions attaching to the decision made by the Shire of Shark Bay.

The minutes of the Ordinary meeting of the Shark Bay Shire Council held in the Council Chamber at the Shark Bay Recreation Centre, Francis Street, Denham on 29 October 2014 commencing at 9.02 am.

#### **Council Resolution**

Councillor Ridgley is granted leave of absence in accordance with Section 2.25 of the *Local Government Act 1995* for the Ordinary meeting of Council scheduled to be held on 29 October 2014.

6/0 CARRIED

#### **Background**

Councillor Ridgley has applied for leave of absence from the ordinary meeting of Council scheduled for 29 October 2014. The Council in accordance with Section 2.25 of the *Local Government Act 1995* as amended, may by resolution grant leave of absence to a member.

#### Comment

Councillor Ridgley has advised the Chief Executive Officer due to work commitments he will be unable to attend the Ordinary meeting of Council scheduled to be held on 29 October 2014 and has requested leave of absence be granted by Council for this meeting.

I advised it would be prudent to seek Council's approval for the leave to ensure that he ensure his obligations have been met in accordance with the Local Government Act.

The Council may consider not granting Councillor Ridgley leave of absence but must include the reasons for the refusal for not granting the leave in the resolution.

#### Legal Implications

**Local Government Act 1995** Section 2.25 Disqualification for Failure to Attend Meetings

- (1) A council may, by resolution grant leave of absence to a member.
- (2) Leave is not to be granted to a member in respect of more than 6 consecutive ordinary meetings of the council without the approval of the minister.
- (3) The granting of leave, or refusal to grant leave and reasons for that refusal, is to be recorded in the minutes for the meeting.
- (4) A member who is absent, without first obtaining leave of the council, throughout 3 consecutive ordinary meetings of the council is disqualified from continuing his or her membership of the council.
- (5) The non-attendance of a member at the time and place appointed for an ordinary meeting of the council does not constitute absence from an ordinary meeting of the council –
- a) If no meeting of the council at which a quorum is present is actually held on that day; or

- b) If the non attendance occurs while
  - a. the member has ceased to act as a member after written notice has been given to the member under section 2.27(3) and before written notice has been given to the member under section 2.27(5)
  - b. while proceedings in connection with the disqualification of the member have been commenced or are pending; or
  - c. while the election of the member is disputed and proceedings relating to the disputed election have been commenced and are pending

#### Officers Recommendation

That in accordance with Schedule 2.2(9) of the *Local Government Act 1995* (the Act), it is recommended to the Local Government Advisory Board that:

- An order be made under s2.2 (1) of the Act to abolish all of the Wards into which the Shire is presently divided, to come into effect for the Ordinary Council elections scheduled for October 2015;
- 2. As part of that order, those Councillors whose terms expire in 2015, complete their terms as normal and nominations are called to fill these vacancies;

And

A- That a submission be made to the Local Government Advisory Board requesting that the remaining Councillors whose terms expire in 2017 continue until their terms expire, and represent the electors of the whole district.

Or

B- That all Councillor Positions be declared vacant and nominations be called to fill all vacancies at the Ordinary Council elections scheduled for October 2015.

Moved Cr Bellottie Seconded Cr Laundry

#### Councillor Recommendation

That in accordance with Schedule 2.2(9) of the *Local Government Act 1995* (the Act), it is recommended to the Local Government Advisory Board that:

#### **Council Resolution**

That in accordance with Schedule 2.2(9) of the Local Government Act 1995 (the Act), it is recommended to the Local Government Advisory Board that:

- 1. An order be made under s2.2 (1) of the Act to abolish all of the Wards into which the Shire is presently divided, to come into effect for the Ordinary Council elections scheduled for October 2015;
- 2. As part of that order, those Councillors whose terms expire in 2015, complete their terms as normal and nominations are called to fill these vacancies:
- That a submission be made to the Local Government Advisory Α Board requesting that the remaining Councillors whose terms expire in 2017 continue until their terms expire, and represent the electors of the whole district.

The vote was cast and resulted in a tied vote

3/3 TIED

The President exercised a casting vote and the item was recorded as 4/3. however due to the item requiring an absolute majority the item was lost. Local Government Act 1995 Section 5.21 (3) If the votes of members present at a council or a committee meeting are equally divided, the person presiding is to cast a second vote.

#### 4/3 ON PRESIDENTS CASTING VOTE MOTION LOST AS NOT CARRIED BY ABSOLUTE MAJORITY

#### Background

A local government that has a ward system is required to carry out reviews of:

- a) its ward boundaries; and
- b) the number of offices of councillor for each ward from time to time so that not more than eight years elapse between successive reviews.

The purpose of a review is to evaluate the current arrangements and consider other options to find the system of representation that best reflects the characteristics of the district and its people.

Any of the following may be considered:

- Creating new wards in a district already divided into wards;
- Changing the boundaries of a ward;
- Abolishing any or all of the wards into which a district is divided;
- Changing the name of a district or a ward:
- Changing the number of offices of councillor on a council; and
- Specifying or changing the number of offices of councillor for a ward.

At its meeting held on 30 July 2014, Council resolved to undertake a review of its ward system and representation. A discussion paper (including an additional option requested for inclusion by Council) was made available to the public as part of the process and is attached at the end of this report.

#### Comment

Section 2.2 of the *Local Government Act 1995* provides for a district to be divided into wards. Schedule 2.2 of the *Local Government Act 1995* sets out the process to review wards and representation.

- Clause 8 of Schedule 2.2 requires a council to assess options against the following factors:
- Community of interest;
- Physical and topographical features;
- Demographic trends:
- Economic factors: and
- The ratio of councillors to electors in the various wards.

Proposals to change ward boundaries are assessed by the Local Government Advisory Board, which in turn makes recommendations to the Minister for Local Government.

An assessment of the options available to the Shire, their effect and application to the criteria listed above, and associated conclusions are set out below.

#### **Features of the District**

#### Community of interest

Denham is the main services and commercial centre of the district. Settlements also exist at Monkey Mia, Nanga, Overlander, Billabong, Hamelin Pool Telegraph Station and Useless Loop. Useless Loop is a "closed" mining town located 250km from Denham by road or 25km across the bay from Denham.

Outside Denham and Useless Loop, there is a community of interest between pastoralists, another with tourism services providers at Hamelin Pool, and with services providers (roadhouse) operators along the North West Coastal Highway.

#### Physical and topographical features

The Shire comprises an area of some 24,000 km². Shark Bay's shoreline has a 'W' shape formed by two peninsulas, Edel Land and Peron, three large outlying islands, and an eastern coastal strip.

Large areas of the Shire are parks and reserves. It is a World Heritage listed area.

Major roads include the North West Coastal Highway, the Denham-Useless Loop Road, and the Denham-Monkey Mia Road.

#### Demographic trends

The Shire's population is relatively stable. There was a slight drop (approximately 5%) in population from 2001 to 2006 but levels are now almost identical to the 2001 ABS census figures. The Shire is home to slightly more males than females.

From the 2011 ABS Census figures, the majority of the Shire's permanent resident population live in town sites. Around 10% of the Shire's population is of Aboriginal or Torres Strait Islander descent.

#### Economic factors

Denham is the main area for commercial activity in the Shire. Activities include tourism, fishing and associated industries, and regional services supporting the tourism, pastoral, fishing and other industries.

The tourist resort of Monkey Mia is located to the east of Denham.

Salt mining is undertaken at Useless Loop, which is a closed town (permission is required to enter from the mine owners).

The eastern areas of the Shire are home to pastoral and grazing properties.

#### Ratio of Councillors to Electors

The ratio of Councillors to electors as at October 2013 was:

| Ward            | Councillors | Electors | Councillor<br>to elector<br>ratio | % ratio<br>deviation |
|-----------------|-------------|----------|-----------------------------------|----------------------|
| Denham          | 5           | 432      | 86                                | -10.97%              |
| Pastoral        | 1           | 38       | 38                                | +51.19%              |
| Useless<br>Loop | 1           | 75       | 75                                | -3.67%               |
| Total           | 7           | 545      | 78                                |                      |

This criteria is of particular interest to the Local Government Advisory Board. The Board has advised that a deviation of no more than plus or minus 10% in the ration of councillors to electors is acceptable to it. Two of the Shire's three wards are outside that limit.

An assessment of the options set out in the discussion paper consider by Council on 30 July against the above criteria is set out below.

#### Option 1 – Retain current number of councillors (seven); no wards

Under this option, the Shire dispenses with wards altogether. The number of Councillors is kept at the present level of seven.

Application of this option against the criteria set out in Schedule 2.2 results in the following:

#### Community of Interest

Having no wards results in the entire district being treated as one community of interest and does will not reflect different communities of interest in terms of town or pastoral activities.

#### Physical and topographical features

Physical or topographical features are not reflected in this option.

#### Demographic trends

While having 'no wards' does not take into account any changes in demographic trends that may influence the Shire, its population is relatively stable anyway and this criteria does not appear to warrant significant weighting.

#### Economic factors

This option does not reflect the different economic activities undertaken in the Shire.

#### Ratio of councillors to electors

Under this option the ratio of councillors to electors would be 1:78.

Given that there are no wards, the question of an imbalance between 'one vote/ one value' does not arise.

## Option 2 – Increase to nine councillors; reduce from three to two wards by combining Pastoral and Useless Loop Wards.

Under this option, the present wards of Useless Loop and Pastoral are combined. In order to achieve a ratio of no more than + or - 10% of electors per councillor, it is necessary to increase the number of councillors from 7 to 9.

Application of this option against the criteria set out in Schedule 2.2 results in the following:

Community of Interest

The communities of interest that would result from this option would be reflected in the Denham Ward, but a combined Pastoral and Useless Loop Ward does not reflect communities of interest.

#### Physical and topographical features

Physical or topographical features are not reflected in this option.

#### Demographic trends

As with all others, this option does not take into account any changes in demographic trends that may influence the Shire, however its population is relatively stable anyway and this criteria does not appear to warrant significant weighting.

#### Economic factors

This option does not reflect the different economic activities undertaken in the Shire.

#### Ratio of councillors to electors

In order to achieve an acceptable ratio of electors to councillors of no more than + or - 10% it would also be necessary to increase the number of councillors for the Denham Ward to 7 (total councillors would then be 9):

| Ward                          | Councillors | Electors | Councillor<br>to elector<br>ratio | % ratio deviation |
|-------------------------------|-------------|----------|-----------------------------------|-------------------|
| Denham                        | 7           | 432      | 62                                | -1.91%            |
| Pastoral &<br>Useless<br>Loop | 2           | 113      | 57                                | 6.70%             |
| Total                         | 9           | 545      | 61                                |                   |

## Option 3 - Increase from seven (7) to fourteen (14) councillors; retain current number of Wards (three).

Retain the current Wards, but increase the number of councillors in the Useless Loop and Denham Wards so that the ratio of councillors to electors is as close as it can be to the lowest, which is the Pastoral Ward. Total councillors would then be 14, the maximum allowable under the Act.

Application of this option against the criteria set out in Schedule 2.2 results in the following:

#### Community of Interest

This option reflects communities of interest.

#### Physical and topographical features

This option reflects the physical and topographical features of the district.

#### Demographic trends

As with all others, this option does not take into account any changes in demographic trends that may influence the Shire, however its population is relatively stable anyway and this criteria does not appear to warrant significant weighting.

#### Economic factors

This option reflects the different economic activities undertaken in the Shire.

#### Ratio of councillors to electors

In order to achieve an acceptable ratio of electors to councillors of no more than + or - 10% it would also be necessary to increase the number of councillors for the Denham Ward to 11 and Useless Loop ward to 2 (total councillors would then be 14, the maximum allowed under the Local Government Act).

#### Ratios under this option are:

| Ward            | Councillors | Electors | Councillor<br>to elector<br>ratio | % ratio<br>deviation |
|-----------------|-------------|----------|-----------------------------------|----------------------|
| Denham          | 11          | 432      | 39                                | -0.88%               |
| Pastoral        | 1           | 38       | 38                                | 2.39%                |
| Useless<br>Loop | 2           | 75       | 38                                | 3.67%                |
| Total           | 14          | 545      | 39                                |                      |

## Option 4 - Retain present number of councillors (seven), reduce from three to two Wards by combining Denham and Pastoral Wards

Under this option, Wards are reduced from three to two by combining the Denham and Pastoral Wards, with the Useless Loop Ward retained. The present number of elected members is retained at seven.

#### Community of Interest

This option does not reflect communities of interest present in the Shire.

#### Physical and topographical features

Physical or topographical features are not reflected in this option.

#### Demographic trends

As with all others, this option does not take into account any changes in demographic trends that may influence the Shire, however its population is relatively stable anyway and this criteria does not appear to warrant significant weighting.

#### Economic factors

This option does not reflect the different economic activities undertaken in the Shire.

#### Ratio of councillors to electors

Maintaining the present number of councillors at seven, combining the Denham and Pastoral Wards, and retaining the Useless Loop Ward, produces the following ratio of electors per councillor:

| Ward                | Councillor<br>s | Electors | Councillor<br>to elector<br>ratio | % ratio deviation |
|---------------------|-----------------|----------|-----------------------------------|-------------------|
| Denham/P<br>astoral | 6               | 470      | 78                                | -1%               |
| Useless<br>Loop     | 1               | 75       | 75                                | 4%                |
| Total               | 7               | 545      | 78                                | 4 70              |

#### <u>Option 5 – Maintain current wards, boundaries and councillors</u>

Under this option, the present number of councillors is maintained at seven, with three Wards, with no changes.

#### Community of interest

This option reflects existing communities of interest.

#### Physical and topographical features

This option reflects physical and topographical features.

#### Demographic trends

As with all others, this option does not take into account any changes in demographic trends that may influence the Shire, however its population is relatively stable anyway and this criteria does not appear to warrant significant weighting.

#### Economic factors

This option reflects the different economic activities undertaken in the Shire.

#### Ratio of councillors to electors

This option does not result in an acceptable ratio of councillors to electors in two of the Shire's three Wards:

| Ward     | Councillors | Electors | Councillor to | % ratio   |
|----------|-------------|----------|---------------|-----------|
|          |             |          | elector ratio | deviation |
| Denham   | 5           | 432      | 86            | -10.97%   |
| Pastoral | 1           | 38       | 38            | +51.19%   |
| Useless  | 1           | 75       | 75            | -3.67%    |
| Loop     |             |          |               |           |
| Total    | 7           | 545      | 78            |           |

#### Consultation

The review was advertised for comment from the public ending on 1 October. It was publicised via the Northern Guardian, the Inscription Post, the Shire notice

board and its website. The criteria to be used and possible options were detailed in a discussion paper, also available on the website and Council's office. Five submissions, attached at the end of this report, were received and are summarised as follows:

- Three submission supporting Options that see retention of a Pastoral Ward or a Wards system, and in essence:
  - Supporting retention of the present wards and current number of councillors (Option 5) and opposing no wards (Option 1);
  - submitting that the needs of the pastoral area of the Shire is different to the Useless Loop and Denham wards; and
  - opposing an increase in the number of Councillors to 14 under option 3;
- Two submissions supporting no wards (Option 1), and:
  - o Retaining the present number of councillors:
  - Noting that the Shire has in the past struggled to fill a vacancy for councillors for the Useless Loop Ward; and
  - Highlighting a potential lack of representation in cases where (say) a conflict of interest that may arise, thereby reducing representation when having a single councillor from the Pastoral Ward.

#### Conclusion

A simple 'yes' or 'no' assessment of the options available to the Shire against the above criteria is:

| Option   | Community of interest | Physical<br>and<br>topographic<br>al features | Demograph<br>ic trends | Economic factors | Within ratio |
|--|-----------------------|---|------------------------|------------------|--------------|
| Option 1 — retain<br>current number of<br>councillors (seven);<br>no wards   | No                    | No  | No                     | No               | Yes          |
| Option 2 — increase to nine councillors; reduce from three to two wards by combining Pastoral and Useless Loop wards           | No                    | No  | No                     | No               | Yes          |
| Option 3 — increase from seven to 14 councillors; retain current number of wards (three)                                       | Yes                   | Yes   | No                     | Yes              | Yes          |
| Option 4 — retain present number of councillors (seven), reduce from three to two wards by combining Denham and Pastoral wards | No                    | No  | No                     | No               | Yes          |

#### MINUTES OF THE ORDINARY COUNCIL MEETING

#### 29 OCTOBER 2014

| Option 5 - retain | Yes | Yes | No | Yes | No |
|-------------------|-----|-----|----|-----|----|
| status quo of 3   |     |     |    |     |    |
| wards and 7       |     |     |    |     |    |
| councillors       |     |     |    |     |    |

As noted above, an overriding criteria applied by the Local Government Advisory Board is the ratio of electors per Councillor.

Given the disparities in representation, Option 5 (retention of the status quo) would appear not to be a viable option. While it could request the Local Government Advisory Board to consider the case given the size of the Pastoral Ward in particular, this may result in either the Shire being directed to re-submit a review or the Board doing so itself at the Shire's expense under clause 10.3 of Schedule 2.2 of the Act.

Options 2 and 3 see an expansion in the number of elected members from the present level of seven to between nine and fourteen (a local government must have a minimum of six and may have a maximum of 14 councillors where a district is divided into Wards, plus a Mayor or President elected at large), with Wards being reduced to two under Option 2.

Increasing to between nine and fourteen councillors would see an increase in costs without (arguably) an improvement in decision making processes, but that aside relatively speaking Shark Bay is a small local government in terms if the number of electors residing in the district. It is considered that the Shire should maintain the present number of councillors at seven. This has proven to be a workable and efficient number.

There seems to be no support for increasing the number of councillors as set out in Options 2 and 3.

Both Options 2 and 4 seek to maintain some level of differentiation between the different areas of the district by combining the Pastoral and Useless Loop Wards (Option 2) or the Denham and Pastoral Wards (Option 4). Both meet the criteria of the ratio of councillor to electors being within plus or minus 10% of the average, but sees areas with different communities of interest combined.

There is no ideal outcome, but it is considered that Option 1 (no wards) is the most suitable for the Shire. Options 2, 3 and 4 all maintain some mixture of Wards but given that the majority of electors reside in the Denham Ward, the majority of electors will always be drawn from a Ward that includes Denham. Use of Wards does not seem to produce a significant degree of additional benefit that having Wards might.

A councillor is elected to represent the interests of the whole district, not a part of the community or a Ward. In particular, s2.10 of the *Local Government Act* 1995 sets out the role of a councillor:

#### 2.10. Role of councillors

A Councillor —

- (a) represents the interests of electors, ratepayers and residents of the district; and
   (b) provides leadership and guidance to the community in the district; and
   (c) facilitates communication between the community and the council; and
- (d) participates in the local government's decision-making processes at council and committee meetings; and
- (e) performs such other functions as are given to a councillor by this Act or any other written law.

Similarly, an elector does not have to reside within a particular Ward to be elected as a councillor for that Ward – they may reside at, or be an owner or occupier of any property in the entire district.

#### Advantages of having no Wards include:

- Elected members are elected by the whole community not just a section of it. Knowledge and interest in all areas of the Council's affairs would result broadening the views beyond the immediate concerns of those in a Ward.
- The smaller town sites and rural areas have the whole Council working for them.
- Members of the community who want to approach an elected member can speak to any elected member.
- Social networks and communities of interest are often spread across a local government and elected members can have an overview of these.
- Elected members can use their specialty skills and knowledge for the benefit of the whole local government.
- There is balanced representation with each elected member representing the whole community.
- The election process is much simpler for the community to understand and for the Council to administer.

#### The disadvantages of a no Ward system include:

- Electors may feel that they are not adequately represented if they don't have an affinity with any of the elected members.
- Elected members living in a certain area may have a greater affinity and understanding of the issues specific to that area.
- There is potential for an interest group to dominate the Council.
- Elected members may feel overwhelmed by having to represent all electors and may not have the time or opportunity to understand and represent all the issues.
- It may be more difficult and costly for candidates to be elected if they need to canvass the whole local government area.

Option 1 (no Wards) is considered the most suitable for the Shire.

If this option is not considered suitable by council, then Option 4 (combine Pastoral and Denham Wards; seven councillors) is considered the next most suitable.

#### Implementation of Proposed Changes

The process to bring about Option 1 (no wards) is relatively simple and can be done with minimal disruption. A recent change in the interpretation of the legislation of the Local Government Advisory Board has provided the option for councils to request that all offices of councillor not be declared vacant to implement a change from a Wards system to no Wards.

If a Local Government resolves to abolish the ward system and does not wish to declare all offices of councillor vacant, then this must be communicated in a submission to the board. If the request is supported, at the next ordinary elections councillors complete their terms as normal and nominations are called to fill these vacancies. The remaining councillors who still have two years in office represent the electors of the whole district.

Clauses 1 and 2 of Schedule 4.2 of the Act require that as near as is practical half of the number of offices of councillor are to retire at each election. At present, four councillors of the Shire have terms expiring in 2015, and three in 2017.

If Council choses Option 1, all that would be necessary is for Council to request in its submission to the Board that:

- A change to a 'no Wards' system come into effect at the next ordinary council elections scheduled for October 2015;
- 2. Those councillors whose terms expire in 2015, complete their terms as normal and nominations are called to fill these vacancies;

And

Providing they agree, the remaining councillors whose terms expire in 2017 continue until their terms expire, and represent the electors of the whole district.

Or

That all Councillor positions be declared vacant and nominations be called the fill all vacancies at the ordinary council elections scheduled for October 2015

Similarly, if Council were to support Option 4 (combine Denham and Pastoral Wards, seven councillors) with effect from the next Ordinary elections, it is not necessary for any offices of councillor to be declared vacant. Council can request in its submission that:

- 1. The Denham and Pastoral Wards be merged, with effect at the next ordinary council elections scheduled for October 2015;
- 2. The two Wards of the Shire be known as the Useless Loop Ward and the Denham/Pastoral Ward:
- 3. The council be comprised of 7 councillors, 6 from the Denham/Pastoral Ward and one from the Useless Loop Ward;
- 4. Those councillors whose terms expire in 2015, complete their terms as normal and nominations are called to fill these vacancies; and
- Providing they agree, the remaining Denham and Pastoral Ward councillors whose terms expire in 2017 continue until their terms expire, and agree to represent the electors of the combined Denham/Pastoral Ward.

#### Legal Implications

Schedule 2.2.of the *Local Government Act 1995* sets out the requirement for, and process to, review representation at least once every 8 years. Further statutory issues are as listed above.

#### **Policy Implications**

There are no policy implications relative to this report.

#### **Financial Implications**

The Shire has struggled to fill vacancies for particular Wards in the past. Having 'no Wards' may reduce the need for and cost of, extraordinary council elections. Declaring vacant of all the positions will create an additional cost at the ordinary elections in 2015, however the amount is dependent upon the requirement of a contested election, which would be reduced given the increased number of positions.

#### Strategic Implications

Ensuring that the Council remains representative of the community will assist in ensuring a healthy democracy at a local level. The recommended outcome of 'no Wards' will assist in ensuring this is maintained.

#### **Voting Requirements**

Absolute Majority Required

#### <u>Signatures</u>

Date of Report 15 October 2014

#### MINUTES OF THE ORDINARY COUNCIL MEETING

#### 29 OCTOBER 2014

To CEO Mr. Paul Anderson,

We are writing to you in regards to the proposed changes of the ward and the mentioned imbalance of the representation of councillors to the Pastoral ward. We thank you for the opportunity to have our comments taken into consideration.

Pastoral life is very different to the life in a town and therefore it cannot be compared to that.

It would be detrimental to the pastoralists not to have any representation at all, as our needs are very different to those of the town or the mine-site.

Putting the Pastoral ward and Useless Loop together does not seem a correct solution either as we both have complete different needs and expectations from the Shire.

There are other criteria to determine representation, like the physical and topographic features and Economic factors.

At the moment these do not appear to have been addressed in the possible options suggested.

It is important to note that the Pastoral Ward provides a large portion of the rate base to the Shire, without using most services provided.

The land area of the Pastoral Ward is the largest in the Shire.

These two factors should be taken into consideration when making the decision.

The social and economic difference of the Pastoral Ward, warrants an individual to represent us.

If there was a change to wards would this take a complete re-election for all wards and all councillors and thus incurring an unnecessary expense to the ratepayers?

Yours Sincerely

Brian Veitch and Joke Veitch-Vaneechoutte Managers Tamala Station 99483994

Review of Wards and Representation

On behalf of my wife as a Rate Payer & myself as a member of the Electorate I submit that the Ward system be done away with and there be open representation for the 7 Council seats.

Our thinking has been influenced by -

- . the recent absence of any interested candidates for the Useless Loop ward from that locality
- . and the evident conflict of interest in the Pastoral ward with the one Councillor and the one neighbour & subsequent inability for that one Councillor from that Ward to discuss or vote on issues relevant to mutual commercial activities.

Thank you.

Timothy Wynn Hargreaves & Margaret Anne Hargreaves Residents 44 years

#### MINUTES OF THE ORDINARY COUNCIL MEETING

#### 29 OCTOBER 2014

CEO Shire of Shark Bay Knight Terrace Denham 6537

Dear Sir

I wish to make a submission regarding the review of wards and the representation from each.

As the shire of Shark Bay is sparsely populated and the majority of the population is gathered into a node that is centred on the town of Denham there is a danger that the isolated residents and ratepayers will be disenfranchised by the abolishment of wards within the shire. I believe that there is some move from within the council to reduce the influence of the pastoral and Useless Loop ward councillors in council by claiming that they are over represented by numbers voters in their respective wards.

However I believe that there is a good argument to maintain the status quo as the pastoral and Useless Loop ward ratepayers need a voice on council to highlight their disadvantages when compared to the rest of the population of the shire. Most councillors are from the Denham ward which is situated in the extreme west of the shire and are remote from the problems that the pastoral and Useless Loop experience. I believe that dedicated wards that these two minor areas of the shire represent should continue to exist. The experience and day to day knowledge of good representatives from these two wards will enhance the council with all round knowledge and will lead to better decision making for the overall development of the shire, not just for the major town site.

Without representation, the pastoral and Useless Loop issues would soon cease to be relevant if all councillors were from the Denham ward as would happen, as this is where the majority of voters reside. The likelihood of anyone from outside the town of Denham been elected would be exceptionally slim if the ward system was abolished. In my opinion this would be to the overall detriment of the shire.

The pastoral areas of the shire are the front door to the western areas of the shire including the town of Denham and the resort of Monkey Mia and as such need to be considered to be an important integral part of the shire, not as seen now to be an annoyance.

I believe that council should be cautious when considering any possibility to abolish the current ward structure as if this is done, then that argument could be used against the shire when opposing any amalgamation of shires as that is basically the same thing only on a different scale.

I wish to submit that the numbers of councillors should remain at the current number as this is adequate to give a spread of views and helps prevent a concept of cronyism that could develop when only a small number of councillors meet to vote on issues that have a large impact on the community.

Joe McLaughlin

## Nerren-Nerren Pastoral Company.

nerren-nerren@bigpond

Attention CEO,

Shire of Shark Bay.

Dear Paul,

(re Review of Wards and Representation)

We note that it is again time for a review of wards and representation within the Shark Bay Shire.

When the Shire of Shark bay was reformed after the commissioners, in the 1960's there were 4 rural

councilors (2 wards) and 1 town councilor. Over the next several decades that ratio was changed. At

various stages there were \* 4 rural (2 wards); 2 town; \* 2 rural (1 ward); 4 town; 2 Loop; \* 1 rural;

1 Loop, 5 Town

All these changes were made to "comply" with LGA/LGAB guidelines of the day.

It is our opinion that the purpose of council is to represent the "people".

We think that the present ratio gives each area (ward) to have representation from a representative with

knowledge of that ward area.

Shark Bay is a diverse community of small population-spread across a large area of country ( An area

close to the size of Tasmania). Unfortunately the "guidelines" do not always fit the situation on ground.

The people within each area of the Shire deserve representation. (Town, Loop, Pastoral)

We urge the Council to pursue Option 4, to maintain the opportunity for representation from each of the 3 words as they are currently designated.

We support this position knowing that it may not be accepted by the LGAB but would hope that council will vigorously defend this position. We do need to stand up for "our shire" not always defer to others. It would be extremely hard to keep within the LGAB guidelines without either a loss of representation from some area of our shire (read Pastoral word), or significant cost increases within our council admin budget to accommodate several new councilor positions.

Thank you for the opportunity to submit our concerns,

Yours Fuithfully.

(H.J.Crawford)

(W.E.A. Crawford)

1<sup>st</sup> September 2014

Paul Anderson Chief Executive Officer Shire of Shark Bay 65 Knight Terrace Denham WA 6537

Dear Paul

We have considered the recommendations put forward for the Council to consider in this review. Firstly, all of the options are based on ratios of councilors to electors and no consideration is given to the other factors which may be used to decide ward boundaries. We support the retention of the current ward structure. The other options given are based on only one factor – population- and the realistic recommendations (option 3 is not realistic) support the elimination or amalgamation of the pastoral ward.

Other factors to consider are:-

#### **Community of Interest**

Residents in the pastoral ward have a sense of community identity and belonging. They face similarities in isolation and the challenges this entails, such as transport and access to education to name a few. There are no schools, limited postal services, few shops and large distances to travel to access any of these. This ward has similar economic activities. There are tourism operators who have a different set of challenges to their town counterparts and there are pastoralists who are not represented anywhere else. There are little or no services provided for the rates paid. We all operate businesses and there is a sense of community amongst us and we rely on one another for emotional and community support. To counter the debate based purely on population statistics, factors like this need to be given a weighting in the decision process.

#### Physical and Topographic features.

The pastoral ward represents a small amount of people, however, it accounts for the major land area of the Shire. This ward encompasses the major road infrastructure in the Shire, thousands of hectares of parks and reserves, many kilometres of coastline and several islands, as well as pastoral properties and tourism businesses. It generates a considerable percentage of the Shire rate base and has issues that are not understood or appreciated by people who reside in the town or several other small residential nodes. For the Council to retain a balance on all issues in the Shire, it is imperative that this area continues to maintain its individual representation.

#### **Economic Factors**

The economy of the ward is very different from the residential nodes of the Shire. From a pastoral perspective, there is a lack of understanding that they are operating businesses and that seasons impact incomes. The tourism and related operators need to be self-reliant and operate without the support of other businesses. Mining has another set of unique challenges and many residents in other parts of the Shire see the economic benefits of mining for the rate base of the Shire but are not aware of economic restraints faced by mining companies.

#### **Demographic trends**

It is unlikely that there will be significant population growth in the pastoral ward in the short term. Gunson Resources have a proposed mine on the Coburn and Hamelin leases and if this was to come into production this situation could change.

#### **Comments on proposed options**

Option 1 - This option disadvantages the pastoral ward as historically where this has occurred in other Shires the pastoral councilor is lost. This fails to retain a healthy democracy.

Option 2 - Again this is purely population driven, and increases the number of councilors to 9 which is unsustainable.

Option 3 - This is also population driven and 14 councilors are unsustainable.

Option 4 – We strongly support this.

Local Government Minister Tony Simpson addressed this ward issue when in Shark Bay for the opening of the new playground. He indicated his support for maintaining Local Government representation for large areas of land as this assisted in maintaining a healthy democracy, even though there is an imbalance in the ratio of councilors to electors. We maintain that in your role as CEO a strong case needs to be developed to retain the status quo, and further, to request the support of the Minister to achieve this.

Yours sincerely

Mary & Brian Wake

Shire of Shark Bay

## Review of Wards and Representation

August 2014

#### Background

The Shire of Shark Bay has resolved to undertake a review of its ward system to comply with the requirements of the *Local Government Act* 1995 (the Act).

Schedule 2.2 of the Act requires local governments with wards to carry out reviews of the ward boundaries and the number of Councillors for each ward from time to time so that no more than eight years elapse between successive reviews.

The last review of wards in the Shire was undertaken in 2006 and it is now appropriate to carry out another review.

#### **Current situation**

The Council of the Shire is presently made up of 7 members, and is divided into 3 wards. At the October 2013 elections the ratios of electors to councillors were:

| Ward            | Councillors | Electors | Councillor to elector ratio | % ratio<br>deviation |
|-----------------|-------------|----------|-----------------------------|----------------------|
| Denham          | 5           | 432      | 86                          | -10.97%              |
| Pastoral        | 1           | 38       | 38                          | +51.19%              |
| Useless<br>Loop | 1           | 75       | 75                          | -3.67%               |
| Total           | 7           | 545      | 78                          |                      |

The % ratio deviation gives a clear indication of the % difference between the average councillor/elector ratio for the whole local government and the councillor/elector ratio for each ward.

It can be seen that there is a significant imbalance in representation across the Shire with the Pastoral Ward being over represented and the Denham Ward being under represented. A balanced representation would be reflected in the % ratio deviation being within plus or minus 10%.

#### Review process

The review process involves a number of steps:

- · The council resolves to undertake the review;
- · Public submission period opens;
- Information provided to the community for discussion;
- · Public submission period closes;
- The Council considers all submissions and relevant factors and makes a decision;
- The Council submits a report to the Local Government Advisory Board (the Board) for its consideration; and
- If a change is proposed, the Board submits a recommendation to the Minister for Local Government (the Minister).

Any changes approved by the Minister where possible will be in place for the next ordinary election where possible.

#### Factors to be considered

When considering changes to wards and representation, Schedule 2.2 of the Act specifies factors that must be taken into account by a local government as part of the review process:

- 1. Community of interest;
- 2. Physical and topographic features;
- 3. Demographic trends;
- 4. Economic factors; and
- 5. Ratio of Councillors to Electors in the various wards.

The Board offers the following interpretation of these factors.

#### 1. Community of interest

The term community of interest has a number of elements. These include a sense of community identity and belonging, similarities in the characteristics of the residents of a community and similarities in the economic activities. It can also include dependence on the shared facilities in an area as reflected in catchment areas of local schools and sporting teams, or the circulation areas of local newspapers.

Neighborhood's, suburbs and towns are important units in the physical, historical

Shire of Shark Bay - Review of Wards and Representation

and social infrastructure and often generate a feeling of community and belonging.

#### 2. Physical and topographic features

These may be natural or man-made features that will vary from area to area. Water features such as rivers and catchment boundaries may be relevant considerations. Coastal plain and foothills regions, parks and reserves may be relevant as may other man made features such as railway lines and freeways.

#### 3. Demographic trends

Several measurements of the characteristics of human populations, such as population size, and its distribution by age, sex, occupation and location provide important demographic information. Current and projected population characteristics will be relevant as well as similarities and differences between areas within the local government.

#### 4. Economic factors

Economic factors can be broadly interpreted to include any factor that reflects the character of economic activities and resources in the area. This may include the industries that occur in a local government area (or the release of land for these) and the distribution of community assets and infrastructure such as road networks.

#### 5. Ratio of Councillors to Electors in the various wards

It is expected that each local government will have similar ratios of electors to C ouncillors across the wards of its district.

# Options to consider

The Shire is basically comprised of the Denham townsite and Monkey Mia resort, the closed mining town of Useless Loop, and the rest. There are few other aspects of the above criteria around which ward boundaries could be based.

In terms of options to assist discussion and community submissions, and in seeking to keep the deviation of ratios of councillors to electors to below plus or minus 10%, the following may assist:

#### Option 1

Retain current numbers of councillors (7) and have no wards. The ratio of councillors to electors would be 1:78.

#### Option 2

Combine the Pastoral and Useless Loop Wards. In order to achieve an acceptable ratio of electors to councillors it would also be necessary to increase the number of councillors for the Denham Ward to 7 (total councillors would then be 9):

| Ward                         | Councillors | Electors | Councillor to elector ratio | % ratio<br>deviation |
|------------------------------|-------------|----------|-----------------------------|----------------------|
| Denham                       | 7           | 432      | 62                          | -1.91%               |
| Pastoral and<br>Useless Loop | 2           | 113      | 57                          | 6.70%                |
| Total                        | 9           | 545      | 61                          |                      |

#### Option 3

Retain the current wards, but increase the number of councillors in the Useless Loop and Denham wards so that the ratio of councillors to electors is as close at it can be to the lowest, which is the Pastoral ward (total councillors would then be 14, the maximum allowable under the Act):

| Ward            | Councillors | Electors | Councillor<br>to elector<br>ratio | % ratio<br>deviation |
|-----------------|-------------|----------|-----------------------------------|----------------------|
| Denham          | 11          | 432      | 39                                | -0.88%               |
| Pastoral        | 1           | 38       | 38                                | 2.39%                |
| Useless<br>Loop | 2           | 75       | 38                                | 3.67%                |
| Total           | 14          | 545      | 39                                |                      |

Shire of Shark Bay - Review of Wards and Representation

# Option 4

Combine the Denham and Pastoral Wards, and retain the Useless Loop Ward, and retain the present number of elected members:

| Ward                | Councillors | Electors | Councillor<br>to elector<br>ratio | % ratio<br>deviation |
|---------------------|-------------|----------|-----------------------------------|----------------------|
| Denham/P<br>astoral | 6           | 470      | 78                                | -1%                  |
| Useless<br>Loop     | 1           | 75       | 75                                | 4%                   |
| Total               | 7           | 545      | 78                                |                      |

# <u>Others</u>

Members of the public should feel free to make any other suggestions or observations in terms of the criteria described above.

Shire of Shark Bay - Review of Wards and Representation

# **Public submissions**

Members of the community are invited to make a written submission about any aspect of ward boundaries and representation and lodge it at:

Shire of Shark Bay 65 Knight Terrace Denham WA 6537

Fax: 08 9948 1237

Submissions will also be accepted by email: admin@sharkbay.wa.gov.au

All submissions must be received by 4 pm on 1 October 2014

Thank you for your interest and involvement in this review. Council welcomes your comments on any matters that may assist it to make informed and responsible decisions for the benefit of the people of the Shire of Shark Bay.

#### 29 OCTOBER 2014

The President adjourned the Ordinary Council meeting at 10.27 am.

During the adjournment the President invited Ms Sandy Bell, from Silver Chain, to come forward and draw the Rate incentive prizes.

1st Prize goes to Mr Ray Hill – 88 Hughes Street Denham 2nd Prize goes to M Mackay – 67 Hughes Street Denham 3rd Prize goes to Ms M Wainwright – Lot 3 Nanga Road Via Denham

The President made a presentation to Ms Sandy Bell and thanked her for her service to the Shark Bay community and wished her well in her future endeavours.

The President reconvened the Ordinary Council meeting at 11.22 am.

# 11.2 <u>ANNUAL REVIEW OF REGISTER OF DELEGATIONS</u> CM00039

# **Council Resolution**

That Council adopt the Delegations to the Chief Executive Officer as reviewed in this report in accordance with the *Local Government Act* 1995.

6/0 CARRIED

#### Background

Section 5.42 of the *Local Government Act 1995* (the Act) provides that a Council may delegate to the Chief Executive Officer the exercise of any of its powers or the discharge of any of its duties under the Act other than those referred to in Section 5.43. Any decision to make, amend or revoke a delegation is to be by an absolute majority - see Section 5.45(1) (b) below.

# 5.45. Other matters relevant to delegations under this Division

- (1) Without limiting the application of sections 58 and 59 of the Interpretation Act 1984 –
- (b) any decision to amend or revoke a delegation by a local government under this Division is to be by an absolute majority.

The Register of Delegations is required to be reviewed once every financial year, as required by Section 5.46(2) of the Act. The Register of Delegations was last reviewed in full at the Ordinary Council meeting held on 31 October 2013.

# Comment

The purpose of the review is to consider the operational effectiveness of the current delegations, whether each delegation is necessary, whether each delegation is appropriate and whether legislative amendments necessitate any changes.

All delegations have been reviewed to ensure format consistency with other Shire documents (such as Policies) and with a view to ensuring consistency with references to statutory references and any changes to relevant legislation that describes the power or duty being delegated.

This review has now included a delegation to the Chief Executive Officer in regards to the *Dog Act 1976* as well as the *Cat Act 2011*.

# **Dog Act 1976**

Section 10AA Delegation of local government powers and duties states:

- (1) A local government may, by absolute majority as defined in the *Local Government Act 1995* section 1.4, delegate to its chief executive officer any power or duty of the local government under another provision of this Act.
- (2) The delegation must be in writing.
- (3) The delegation may expressly authorise the delegate to further delegate the power or duty.
- (4) A local government's chief executive officer who is exercising or performing a power or duty that has been delegated as authorised under this section, is to be taken to do so in accordance with the terms of the delegation unless the contrary is shown.

#### Cat Act 2011

Section 44. Delegation by local government

- (1) The local government may delegate to its CEO the exercise of any of its powers or the discharge of any of its duties under another provision of this Act.
- (2) A delegation under this section is to be in writing and may be general or as otherwise provided in the instrument of delegation.
- (3) A decision to delegate under this section is to be made by an absolute majority

This delegation will allow the Chief Executive Officer to on delegate Ranger Duties and Registration Officers for the receipting of dog and cat licences to appropriate staff as needed without having the cost and staff time spent having the duties placed in the Government Gazette as was previously the process.

# **Town Planning**

A new clause has been added under the Town Planning Scheme No. 3 Clause 11.3.1, allowing the Chief Executive Officer to determine an application for planning approval if a quorum cannot be met.

Also included in the review is the delegation to the Chief Executive Officer to make payments from the municipal fund or the trust fund for the performance of functions and exercise of powers. This delegation has a limit of \$100,000, but allows for larger payments to be made within the scope of the project's budget. This delegation allows the Chief Executive Officer to pay outgoings to keep the business of Council running.

Also included in the review is the delegation to the Chief Executive Officer for variation to contract price after awarding a contract. Previously the Council has authorised the Chief Executive Officer to be able to vary the contract price and so by giving delegation of this power where needed Council will be complying with legislation at all times.

# Legal Implications

Section 5.46 of the Local Government Act 1995 states that -

- (1) The Chief Executive Officer is to keep a register of the delegation made under this Division to the Chief Executive Officer and to the employees.
- (2) At least once every financial year, delegations made under this Division are to be reviewed by the delegator.
- (3) A person to whom a power or duty is delegated under this Act is to keep records in accordance with regulations in relation to the exercise of the power or the discharge of the duty.

# **Policy Implications**

The Current Policy Manual adopted by Council at the Ordinary Council meeting held on the 27 August 2014, item 1.7 Instrument of Delegation (2) States: "When powers and duties are delegated by the Council to the Chief Executive Officer the Instrument of Delegation be signed by the President or the person presiding".

# **Financial Implications**

This delegation will save Council the cost of gazetting staff to Ranger positions and Registration Officers for the receipting of dog and cat licencing.

# Strategic Implications

There are not Strategic Implications related to this report.

#### **Council Resolution**

#### That the:

- Council's administration office and depot close for the Christmas/New Year period from Wednesday 24 December 2014 to Friday 2 January 2015 inclusive;
- 2. Shark Bay World Heritage Discovery and Visitor Centre be closed on 25 December 2014; and
- 3. Denham Refuse Site be:
  - a. Closed on Wednesday 24 December 2014;
  - b. Closed on Thursday 25 December 2014;
  - c. Open for two (2) hours on Friday 26 December 2014;
  - d. Closed on Wednesday 31 December 2014; and
  - e. Closed on Thursday 1 January 2015.

6/0 CARRIED

# Background

Council has previously closed the office and depot between Christmas and New Year. The public holidays for the Christmas period of 2014 are Thursday 25 December 2014, Friday 26 December 2014, Thursday 1 January 2015, which is New Year's Day and 2 January 2015.

# Comment

# **Administration Office and Depot**

It is recommended that the office and depot be closed from Wednesday 24 December 2014 and reopen on Monday 5 January 2015 which results in closure for a two week period.

Staff would be required to take leave as follows:

- Public Holidays; and
- Accrued RDO's or Annual Leave

Emergency staff would still be contactable and a skeleton crew would be working at the depot.

# **Shark Bay World Heritage Discovery and Visitor Centre**

Shark Bay World Heritage Discovery and Visitor Centre would be open with the exception of Christmas Day when the Centre would be closed.

# **Refuse Site**

It is proposed to close the refuse site on Wednesday 24, Thursday 25 December, Friday 26 December 2014, open for a two (2) hour period and closed on Wednesday 31 December 2014 and Thursday 1 January 2015.

The refuse site is normally closed on Wednesdays and Thursdays and therefore there would be only one day, that being Friday 26 December, which would be extra closing.

To facilitate the disposal of rubbish it is proposed to open the refuse site on Saturday 27 December 2014 from 8 am to 12 noon, then from 1 pm to 3 pm as normal.

This is a relatively quiet time and it is not seen that the closure of these sites would impact on Council's service provision.

# **Legal Implications**

There are not legal impactions relating to this report

# **Policy Implications**

There are no policy implications relating to this report.

#### Financial Implications

The closure of the office and depot would assist in the reduction of leave liability.

# Strategic Implications

There are no strategic implications relating to this report.

| 1.  | SIGNIFICANT ACCOUNTING POLICIES (Continued)  |                                |  |  |  |  |
| (j) | Fixed Assets (Continued)   |                                |  |  |  |  |
|     | Major depreciation periods used for each class of depreciable asse   | t are:                         |  |  |  |  |
|     | Buildings  | 25 to 50 years                 |  |  |  |  |
|     | Construction other than buildings (Public Facilities)  | 5 to 50 years                  |  |  |  |  |
|     | Plant and Equipment  | 5 to 15 years                  |  |  |  |  |
|     | Furniture and Equipment  | 4 to 10 years                  |  |  |  |  |
|     | Heritage   | 25 to 50 years                 |  |  |  |  |
|     | Roads  | 25 years                       |  |  |  |  |
|     | Footpaths  | 50 years                       |  |  |  |  |
|     | Sewerage piping  | 75 years                       |  |  |  |  |
|     | Water supply piping & drainage systems   | 75 years                       |  |  |  |  |
|     | The assets residual values and useful lives are reviewed, and adjust of each reporting period.                                   | ted if appropriate, at the end |  |  |  |  |
|     | An asset's carrying amount is written down immediately to its reco   | verable amount if the asset's  |  |  |  |  |
|     | carrying amount is greater than its estimated recoverable amount.  |                                |  |  |  |  |
|     | Gains and losses on disposals are determined by comparing proce  | eds with the carrying          |  |  |  |  |
|     | amount. These gains and losses are included in profit or loss in the period which they arise.                                    |                                |  |  |  |  |
|     | When revalued assets are sold, amounts included in the revaluation   | n surplus relating to that     |  |  |  |  |
|     | asset are transferred to retained surplus.   |                                |  |  |  |  |
|     | Capitalisation Threshold   |                                |  |  |  |  |
|     | Expenditure on items of equipment under \$5,000 is not capitalised   | Rather, it is recorded on an   |  |  |  |  |
|     | asset inventory listing.   |                                |  |  |  |  |
| (k) | Fair Value of Assets and Liabilities   |                                |  |  |  |  |
|     | When performing a revaluation, the Council uses a mix of both indevaluations using the following as a guide:                     | ependent and management        |  |  |  |  |
|     | Fair Value is the price that Council would receive to sell the asset   |                                |  |  |  |  |
|     | transfer a liability, in an orderly (i.e. unforced) transaction between and willing market participants at the measurement date. | independent, knowledgeable     |  |  |  |  |

| 1.  | SIGNIFICANT ACCOUNTING POLICIES (Continued)   |  |
|     |   |  |
| (m) | Impairment of Assets (Continued)  |  |
|     |   |  |
|     | For non-cash generating assets such as roads, drains, public buildings and the like, value in use   |  |
|     | is represented by the depreciated replacement cost of the asset.  |  |
|     |   |  |
|     |   |  |
| (n) | Trade and Other Payables  |  |
|     | Trade and other payables represent liabilities for goods and services provided to the Council   |  |
|     |   |  |
|     | prior to the end of the financial year that are unpaid and arise when the Council becomes obliged to make future payments in respect of the purchase of these goods and services. The amounts |  |
|     |   |  |
|     | are unsecured, are recognised as a current liability and are normally paid within 30 days of recognition.   |  |
|     | recognition.  |  |
| (o) | Employee Benefits   |  |
| (0) | Employee Benefits   |  |
|     | Short-Term Employee Benefits  |  |
|     | Provision is made for the Council's obligations for short-term employee benefits. Short-term  |  |
|     | employee benefits are benefits (other than termination benefits) that are expected to be settled  |  |
|     | wholly before 12 months after the end of the annual reporting period in which the employees   |  |
|     | render the related service, including wages, salaries and sick leave. Short-term employee   |  |
|     | benefits are measured at the (undiscounted) amounts expected to be paid when the obligation is  |  |
|     | settled.  |  |
|     |   |  |
|     | The Council's obligations for short-term employee benefits such as wages, salaries and sick   |  |
|     | leave are recognised as a part of current trade and other payables in the statement of financial  |  |
|     | position. The Council's obligations for employees' annual leave and long service leave  |  |
|     | entitlements are recognised as provisions in the statement of financial position.   |  |
|     |   |  |
|     | Other Long-Term Employee Benefits   |  |
|     | Provision is made for employees' long service leave and annual leave entitlements not expected to   |  |
|     | be settled wholly within 12 months after the end of the annual reporting period in which the employees render the related service. Other long-term employee benefits are measured at the      |  |
|     |   |  |
|     | present value of the expected future payments to be made to employees. Expected future payments incorporate anticipated future wage and salary levels, durations or service and               |  |
|     | employee departures and are discounted at rates determined by reference to market yields at the   |  |
|     | employee departures and are discounted at rates determined by reference to market yields at the end of the reporting period on government bonds that have maturity dates that approximate the |  |
|     | terms of the obligations. Any remeasurements for changes in assumptions of obligations for other  |  |
|     | long-term employee benefits are recognised in profit or loss in the periods in which the changes  |  |
|     | occur.  |  |
|     |   |  |
|     | The Council's obligations for long-term employee benefits are presented as non-current provisions   |  |
|     | in its statement of financial position, except where the Council does not have an unconditional right   |  |
|     | to defer settlement for at least 12 months after the end of the reporting period, in which case the   |  |
|     | obligations are presented as current provisions.  |  |

Moved Cr Prior Seconded Cr Cowell

## **Council Resolution**

## That Council:

- A. Approve the application lodged by Yadgalah Aboriginal Corporation for fencing along the front boundary of Lot 223 (9) Francis Street, Denham subject to the following conditions:
  - 1. All fencing to be fully located with the lot boundaries and no portion of fencing shall encroach into the Council verge / road reserve.
  - 2. All development shall be in accordance with the plans lodged as part of the application unless otherwise agreed to in writing by the Chief Executive Officer.
  - 3. If the fencing subject of this approval is not substantially commenced within a period of 2 years from the date of this approval, the approval shall lapse and be of no further effect.

## B. Advise the applicant (via footnotes on the planning approval) that:

(i) This is planning consent only, and is not authorisation to commence any on site construction. You are required to obtain a separate building permit for the fence prior to any works commencing.

4/0 CARRIED

Cr Laundry and Cr Capewell returned to Council Chamber at 11.37 am.

## **Background**

Council is to consider an application lodged by the Yadgalah Aboriginal Corporation for fencing along the front boundary of Lot 223 (9) Francis Street, Denham.

The subject land is known as Reserve 33517 and there is a Management Order to the Yadgalah Aboriginal Corporation for the purpose of Administration, Community Centre and Recreation.

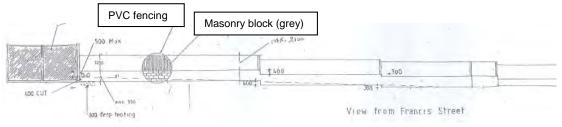

The land is reserved as 'Parks and Recreation' under the Shire of Shark Bay Local Planning Scheme No 3 ('the Scheme').

## Comment

• Description of Development

The applicant proposes to construct a front boundary fence which will face Francis Street.

The fence will consist of grey masonry blocks up to a maximum height of 900mm, with an additional 1200mm white PVC fencing above.

The majority of the fence will be located along the front property boundary, and a portion will be setback 0.5 metres from the front boundary. The total fence height will not exceed 2.1 metres.

## • Scheme Requirements

Council has broad discretion to approve any development within the 'Parks and Recreation' reserve however must have regard for the ultimate purpose intended for the reserve.

#### 29 OCTOBER 2014

The proposed fence is ancillary to existing development and is consistent with the purpose of the reserve.

## **Legal Implications**

Shire of Shark Bay Local Planning Scheme No 3 – Under Clause 3.2.1 (b) of the Scheme 'A person must not commence or carry out development on a Local Reserve, without first having obtained planning approval under Part 9 of the Scheme'.

## **Policy Implications**

There are no Policy Implications related to this item.

## Financial Implications

There are no Financial Implications related to this item.

## **Strategic Implications**

As part of the Scheme Review a future 'community purpose' reservation is proposed for Reserve 33517. The Scheme Review has been placed on hold whilst a coastal report is being finalised for Denham townsite by MP Rogers.

## **Council Resolution**

## **That Council:**

- 1. Note that there were no submissions received from the public notice for the intention to lease Shops 3, 4 and 6, 65-67 Knight Terrace, Denham;
- 2. Confirm the following leases as follows:
  - a) Shop 3 65-67 Knight Terrace to Alison Beales;
  - b) Shop 4 65-67 Knight Terrace to John Hanscombe;
  - c) Shop 6 65-67 Knight Terrace to Monkey Mia Yacht Charters

6/0 CARRIED

## **Background**

Over the last few months Council has been considering the leasing of Shops 3, 4, and 6, 65-67 Knight Terrace, Denham and is required by Section 3.58 of the *Local* 

Government Act 1995 to advertise its intention to lease these properties and consider any submissions it receives.

Section 3.58 of the Local Government Act states:

## Disposing of property

- (1) ...
- (2) Except as stated in this section, a local government can only dispose of property to
  - (a) the highest bidder at public auction; or
  - (b) the person who at public tender called by the local government makes what is, in the opinion of the local government, the most acceptable tender, whether or not it is the highest tender.
- (3) A local government can dispose of property other than under subsection (2) if, before agreeing to dispose of the property
  - (a) it gives local public notice of the proposed disposition
    - (i) describing the property concerned; and
    - (ii) giving details of the proposed disposition; and
    - (iii) inviting submissions to be made to the local government before a date to be specified in the notice, being a date not less than 2 weeks after the notice is first given;

and

(b) it considers any submissions made to it before the date specified in the notice and, if its decision is made by the council or a committee, the decision and the reasons for it are recorded in the minutes of the meeting at which the decision was made.

## Comment

Council advertised its intention to lease Shops 3, 4, and 6, 65-67 Knight Terrace, Denham on Monday 13 October 2014 in the West Australian and sought submissions from the public on the proposed dispositions.

At the close of the submission period, no submissions were received in response to the advertisement. Therefore, Council can now continue with its proposed leases for these properties, however, as part of this process, it should state the reasons for leasing these properties to the intended lessees.

It is therefore proposed that the following reasons be adopted:

Shop 3 – lease for hairdressers premises which provides an essential service to the community and is the continuation of an existing business which has been in the current location for 5  $\frac{1}{2}$  years;

Shop 4 – lease for a pharmacy premises which provides an essential service to the community and is the extension of a smaller business;

Shop 6 – lease for an existing tourism business which is the current occupier of the premises.

#### 29 OCTOBER 2014

## **Legal Implications**

Section 3.58 of the *Local Government Act 1995* applies to the leasing of property by Council.

## **Policy Implications**

There are no policy implications for this matter.

## **Financial Implications**

Council has previously approved the lease amounts for each of these leases.

## **Strategic Implications**

Outcome 1.4 - To increase the permanent population to attract more businesses, address cost of living issues and become a self-sustaining community.

Action 1.4.2 - Facilitate communication and encourage local business to continuously improve services to the community, particularly customer service.

Section 5.65 of Local Government Act 1995

Disclosure of Interest: Cr Wake at 12.19 pm.

Nature of Interest: Proximity Interest with no nature of interest recorded on the form.

Moved Cr Capewell Seconded Cr Prior

Cr Wake declared a proximity interest and 12.19 pm on the Item.

Cr Wake left the Council Chamber at 12.21 pm.

## **Council Resolution**

## **That Council:**

- 1. Note the written advice by Mrs Cecilia Wee that the 'OzShack' structures are mobile and are parked within existing caravan bays that fall under an existing Caravan Park licence.
- 2. Note the confidential legal advice received from McLeods Barristers and Solicitors as included in Attachment 1.
- 3. Authorise the Chief Executive Officer to write to Ms Cecelia Wee to advise her that the 'OzShack' structures can reasonably be construed as a 'camp' within the meaning of that term in the *Caravan and Camping Grounds Act 1995*. As there is an existing Caravan Park Licence for Lot 4 Nanga Road Nanga, the OzShack structures can be retained on the lot without any further approval as long as the structures are kept in a portable form.
