

## Additional Information

### About Me

I chose to build my life in shark Bay - a place that inspires me every day with its natural beauty, strong community spirit and cultural richness. I studied at universities in Slovakia and Western Australia and have worked across the marketing, legal, government and tourism sectors, gaining a broad understanding of the challenges and opportunities facing regional communities.

Over the past four years as a Shark Bay Shire Councilor, I have worked collaboratively to support inclusive decision making and advocated for a sustainable development.

I have held leadership roles in community organisations such as the Shark Bay Business and Tourism Association, Shark Bay Arts Council, Gascoyne in May and Yadgalah Aboriginal Corporation - helping to deliver events and initiatives that celebrate our region's diversity and creativity.

I am proud to raise my young family here and remain profoundly committed to preserving Shark Bay's unique natural heritage while guiding sustainable, community led progress. I believe in transparent governance, respectful dialogue and practical solutions that reflect the needs and aspirations of our community.

### Why I am Running for Re-election

I am seeking re-election as I believe in power of local voices to shape meaningful change. I care about the legacy we leave for our future generations and I want to continue working with you to protect Shark Bay's natural heritage, strengthen our economy, and ensure that every resident feels heard, respected and represented.

Together, we can build a future that honors our past, embraces innovation and keeps Shark Bay thriving for many years to come.
