BURVILL, Sharyn

I moved to Denham nearly 8 years ago, fell in love with the place and decided to make it my permanent home. Shark Bay is a vibrant and unique place which needs improvements in a few key areas to maintain and grow our community. It is vitally important to increase our access to health care services and I support the great work already being done in this field. We need to develop strategies to retain young people in our town to keep us growing and evolving in our ever changing environment. We need improvements in our connectivity, particularly mobile phone coverage on the road between here and the Overlander to improve travel safety in this remote area. If elected I will listen to your concerns, present your ideas to Council in an honest and sincere way and work to continually promote and advocate for our beautiful home.
