MORONEY, Wayne

I moved to Denham for work in 2001 and fell in love with the place. I have been involved with tourism, volunteering within the emergency services and local sporting and community groups.

I believe in promoting youth employment, maintaining activities for the elderly and supporting local tourism. If elected I hope to achieve closer relationships and cooperation between councillors, staff and the community, leading to clearer understanding of outcomes for the community. I want to ensure that Denham is a great place to live and has a thriving local economy which attracts people to come and invest, live and raise their family in our community.

I am passionate about Shark Bay and will work closely with all community groups to promote the best outcomes for the community. I am approachable, understanding and considerate and will bring community concerns presented to me to council ensuring that the community is heard.
