Background

The *Local Government Act 1995* Section 5.25 requires the Council to advertise its Ordinary Council meeting dates for the forthcoming year.

Comment

Listed below is a proposed schedule for Council meetings in the year 2026 for consideration and approval:

January 2026 – No ordinary meeting of Council to be held;
February 2026 – Wednesday 25 Commencing at 1.00 pm in Council Chambers;
March 2026 – Wednesday 25 Commencing at 1.00 pm in Council Chambers;
April 2026 – Wednesday 29 Commencing at 1.00 pm in Council Chambers;
May 2026 – Wednesday 27 Commencing at 1.00 pm in Council Chambers;
June 2026 – Wednesday 24 Commencing at 1.00 pm in Council Chambers;
July 2026 – Wednesday 29 Commencing at 1.00 pm in Council Chambers;
August 2026 – Wednesday 26 Commencing at 1.00 pm in Council Chambers;
September 2026–Wednesday 30 Commencing at 1.00 pm in Council Chambers;
October 2026 – Wednesday 28 Commencing at 1.00 pm in Council Chambers;
November 2026 –Wednesday 25 Commencing at 1.00 pm in Council Chambers; and
December 2026 – Wednesday 16 Commencing at 1.00 pm in Council Chambers.

Ordinary meetings of Council are held on the last Wednesday of each month unless specifically resolved by Council to allow for other circumstances.

Council regularly amends its December meeting due to Christmas. The schedule indicates that the December 2026 meeting be held on Wednesday 16 December in lieu of 30 December, being the last Wednesday in the month. This gives the Council Administration Staff time to get the minutes and correspondence out to the public before shutdown for the Christmas break.

Legal Implications

Section 5.25 of the *Local Government Act 1995* and the Local Government Regulations Section 12 Public notice of council or committee meetings –

At least once each year a local government is to give local public notice of the dates on which and the time and place at which –

The ordinary council meetings; and

The committee meetings that are required under the Act to be open to members of the public or that are proposed to be open to members of the public,

are to be held in the next twelve (12) months.

Policy Implications

Policy 1.1 - Meetings of Council

Ordinary Council meetings will be held on the last Wednesday of each month except January, unless resolved by Council to allow for other circumstances.

Financial Implications

The financial implication would be the travel costs associated with all members of Council and Council staff traveling to the Council meeting site if Council decides to

29 OCTOBER 2025

hold any meetings at a different location other than the Council Chamber during the financial year.

Strategic Implications

There are no Strategic Implications association with this report.

Risk Management

This is a low risk item to Council.

Comment

As per the requirements of Section 6.4 of the *Local Government Act 1995* and Regulation 34 of the *Local Government Accounting (Financial Management) Regulations 1996*, the following monthly financial reports to **31 August 2025** are attached.

VARIANCE ANALYSIS

Revenue from operating activities - Actual operating revenue as of 31 August 2025 was \$248,415 greater than year to date budget.

Revenue from Grants, Subsidies and Contributions was greater than year to date budget by \$205,859 primarily driven by Main Roads WA direct funding due to an earlier start by the Shire Works team on Shark Bay Road shoulder works.

Revenue from Fees and Charges was greater than year to date budget by \$53,961, primarily driven by higher than year to date income for refuse site fees, Shark Bay Discovery Centre entrance fees and Shark Bay Discovery Centre merchandise.

Expenditure from operating activities - Actual operating expenditure as of 31 August 2025 was less than year to date budget by \$1,150,502, primarily due to depreciation not able to be processed until finalisation of the Annual Financial Report.

LEGAL IMPLICATIONS

Section 34 of the *Local Government (Financial Management) Regulations 1996*, requires a financial report to be submitted to Council monthly.

POLICY IMPLICATIONS

There are no policy implications associated with this item.

29 OCTOBER 2025

FINANCIAL IMPLICATIONS

The financial report shows that the finances of the Shire are in line with its adopted budget.

STRATEGIC IMPLICATIONS

Outcome 7 - A transparent, resilient organisation demonstrating leadership and governance.

Strategy 7.2 – Provide appropriate services to the community in a professional and efficient manner.

Action 7.2.2 – Maintain accountability and financial responsibility in accordance with Long Term Financial Plan.

RISK MANAGEMENT

The financial report reports on the current financial status, and this is currently viewed as a low risk to Council.

SHIRE OF SHARK BAY
NOTES TO THE STATEMENT OF FINANCIAL ACTIVITY
FOR THE PERIOD ENDED 31 AUGUST 2025

1 BASIS OF PREPARATION AND MATERIAL ACCOUNTING POLICIES

BASIS OF PREPARATION

This prescribed financial report has been prepared in accordance with the *Local Government Act 1995* and accompanying regulations.

Local Government Act 1995 requirements

Section 6.4(2) of the *Local Government Act 1995* read with the *Local Government (Financial Management) Regulations 1996*, prescribe that the financial report be prepared in accordance with the *Local Government Act 1995* and, to the extent that they are not inconsistent with the Act, the Australian Accounting Standards. The Australian Accounting Standards (as they apply to local governments and not-for-profit entities) and Interpretations of the Australian Accounting Standards Board were applied where no inconsistencies exist.

The *Local Government (Financial Management) Regulations 1996* specify that vested land is a right-of-use asset to be measured at cost, and is considered a zero cost concessionary lease. All right-of-use assets under zero cost concessionary leases are measured at zero cost rather than at fair value, except for vested improvements on concessionary land leases such as roads, buildings or other infrastructure which continue to be reported at fair value, as opposed to the vested land which is measured at zero cost. The measurement of vested improvements at fair value is a departure from AASB 16 which would have required the Shire to measure any vested improvements at zero cost.

Local Government (Financial Management) Regulations 1996, regulation 34 prescribes contents of the financial report. Supplementary information does not form part of the financial report.

Accounting policies which have been adopted in the preparation of this financial report have been consistently applied unless stated otherwise. Except for cash flow and rate setting information, the financial report has been prepared on the accrual basis and is based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and liabilities.

PREPARATION TIMING AND REVIEW

Date prepared: All known transactions up to 14 October 2025

Matters of non-compliance with Basis of Preparation

The following matters on non-compliance with the basis of preparation have not been correct.

1. Balances as at 30 June 2025 have not been audited and may be subject to change.
2. Depreciation has not been raised during the current financial year.

THE LOCAL GOVERNMENT REPORTING ENTITY

All funds through which the Shire controls resources to carry on its functions have been included in the financial statements forming part of this financial report.

All monies held in the Trust Fund are excluded from the financial statements.

MATERIAL ACCOUNTING POLICIES

Material accounting policies utilised in the preparation of these statements are as described within the 2025-26 Annual Budget. Please refer to the adopted budget document for details of these policies.

Critical accounting estimates and judgements

The preparation of a financial report in conformity with Australian Accounting Standards requires management to make judgements, estimates and assumptions that effect the application of policies and reported amounts of assets and liabilities, income and expenses.

The estimates and associated assumptions are based on historical experience and various other factors believed to be reasonable under the circumstances; the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

As with all estimates, the use of different assumptions could lead to material changes in the amounts reported in the financial report.

The following are estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year and further information on their nature and impact can be found in the relevant note:

- Fair value measurement of assets carried at reportable value including:
 - Property, plant and equipment
 - Infrastructure
- Impairment losses of non-financial assets
- Expected credit losses on financial assets
- Measurement of employee benefits

CURRENT AND NON-CURRENT CLASSIFICATION

In the determination of whether an asset or liability is current or non-current, consideration is given to the time when each asset or liability is expected to be settled. Unless otherwise stated assets or liabilities are classified as current if expected to be settled within the next 12 months, being the local governments' operational cycle.

KEY INFORMATION

Cash and cash equivalents include cash on hand, cash at bank, deposits available on demand with banks and other short term highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

Bank overdrafts are reported as short term borrowings in current liabilities in the statement of net current assets.

The local government classifies financial assets at amortised cost if both of the following criteria are met:

- the asset is held within a business model whose objective is to collect the contractual cashflows, and
- the contractual terms give rise to cash flows that are solely payments of principal and interest.

Financial assets at amortised cost held with registered financial institutions are listed in this note other financial assets at amortised cost are provided in Note 8 - Other assets.

KEY INFORMATION

Initial recognition

An item of property, plant and equipment or infrastructure that qualifies for recognition as an asset is measured at its cost.

Upon initial recognition, cost is determined as the amount paid (or other consideration given) to acquire the assets, plus costs incidental to the acquisition. The cost of non-current assets constructed by the Shire includes the cost of all materials used in construction, direct labour on the project and an appropriate proportion of variable and fixed overheads. For assets acquired at zero cost or otherwise significantly less than fair value, cost is determined as fair value at the date of acquisition.

Assets for which the fair value as at the date of acquisition is under \$5,000 are not recognised as an asset in accordance with *Local Government (Financial Management) Regulation 17A(5)*. These assets are expensed immediately.

Where multiple individual low value assets are purchased together as part of a larger asset or collectively forming a larger asset exceeding the threshold, the individual assets are recognised as one asset and capitalised.

Individual assets that are land, buildings and infrastructure acquired between scheduled revaluation dates of the asset class in accordance with the Shire's revaluation policy, are recognised at cost and disclosed as being at reportable value.

Measurement after recognition

Plant and equipment including furniture and equipment and right-of-use assets (other than vested improvements) are measured using the cost model as required under *Local Government (Financial Management) Regulation 17A(2)*. Assets held under the cost model are carried at cost less accumulated depreciation and any impairment losses being their reportable value.

Reportable Value

In accordance with *Local Government (Financial Management) Regulation 17A(2)*, the carrying amount of non-financial assets that are land and buildings classified as property, plant and equipment, investment properties, infrastructure or vested improvements that the local government controls.

Reportable value is for the purpose of *Local Government (Financial Management) Regulation 17A(4)* is the fair value of the asset at its last valuation date minus (to the extent applicable) the accumulated depreciation and any accumulated impairment losses in respect of the non-financial asset subsequent to its last valuation date.

Other receivables						137,654
GST receivable						115,411
Total receivables general outstanding						487,655

Amounts shown above include GST (where applicable)

KEY INFORMATION

Trade and other receivables include amounts due from ratepayers for unpaid rates and service charges and other amounts due from third parties for goods sold and services performed in the ordinary course of business.

Trade receivables are recognised at original invoice amount less any allowances for uncollectable amounts (i.e. impairment). The carrying amount of net trade receivables is equivalent to fair value as it is due for settlement within 30 days.

Classification and subsequent measurement

Receivables which are generally due for settlement within 30 days except rates receivables which are expected to be collected within 12 months are classified as current assets. All other receivables such as, deferred pensioner rates receivable after the end of the reporting period are classified as non-current assets.

Trade and other receivables are held with the objective to collect the contractual cashflows and therefore the Shire measures them subsequently at amortised cost using the effective interest rate method.

KEY INFORMATION

Inventory

Inventories are measured at the lower of cost and net realisable value.

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

Contract assets

A contract asset is the right to consideration in exchange for goods or services the entity has transferred to a customer when that right is conditioned on something other than the passage of time.

Amounts shown above include GST (where applicable)

KEY INFORMATION

Trade and other payables represent liabilities for goods and services provided to the Shire prior to the end of the period that are unpaid and arise when the Shire becomes obliged to make future payments in respect of the purchase of these goods and services. The amounts are unsecured, are recognised as a current liability and are normally paid within 30 days of recognition. The carrying amounts of trade and other payables are considered to be the same as their fair values, due to their short-term nature.

KEY INFORMATION

The Shire has elected to recognise borrowing costs as an expense when incurred regardless of how the borrowings are applied.

Fair values of borrowings are not materially different to their carrying amounts, since the interest payable on those borrowings is either close to current market rates or the borrowings are of a short term nature.

KEY INFORMATION

Provisions

Provisions are recognised when the Shire has a present legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured.

Provisions are measured using the best estimate of the amounts required to settle the obligation at the end of the reporting period.

Employee Related Provisions

Short-term employee benefits

Provision is made for the Shire's obligations for short-term employee benefits. Short-term employee benefits are benefits (other than termination benefits) that are expected to be settled wholly before 12 months after the end of the annual reporting period in which the employees render the related service, including wages, salaries and sick leave. Short-term employee benefits are measured at the (undiscounted) amounts expected to be paid when the obligation is settled.

The Shire's obligations for short-term employee benefits such as wages, salaries and sick leave are recognised as a part of current trade and other payables in the calculation of net current assets.

Other long-term employee benefits

The Shire's obligations for employees' annual leave and long service leave entitlements are recognised as employee related provisions in the statement of financial position.

Long-term employee benefits are measured at the present value of the expected future payments to be made to employees. Expected future payments incorporate anticipated future wage and salary levels, durations of service and employee departures and are discounted at rates determined by reference to market yields at the end of the reporting period on government bonds that have maturity dates that approximate the terms of the obligations. Any remeasurements for changes in assumptions of obligations for other long-term employee benefits are recognised in profit or loss in the periods in which the changes occur. The Shire's obligations for long-term employee benefits are presented as non-current provisions in its statement of financial position, except where the Shire does not have an unconditional right to defer settlement for at least 12 months after the end of the reporting period, in which case the obligations are presented as current provisions.

Contract liabilities

An entity's obligation to transfer goods or services to a customer for which the entity has received consideration (or the amount is due) from the customer.

Capital grant/contribution liabilities

Grants to acquire or construct recognisable non-financial assets to identified specifications be constructed to be controlled by the Shire are recognised as a liability until such time as the Shire satisfies its obligations under the agreement.

Comment

As per the requirements of Section 6.4 of the *Local Government Act 1995* and Regulation 34 of the *Local Government Accounting (Financial Management) Regulations 1996*, the following monthly financial reports to **30 September 2025** are attached.

VARIANCE ANALYSIS

Revenue from operating activities - Actual operating revenue as of 30 September 2025 was \$459,906 greater than year to date budget.

Revenue from Fees and Charges was \$451,265 greater than year to date budget, primarily driven by a greater than year to date budget performance across Main Roads WA income, Shark Bay Discovery Centre entrance and merchandise income, refuse and caravan park fees.

Expenditure from operating activities - Actual operating expenditure as of 30 September 2025 is less than year to date budget by \$1,832,155.

The operating expenditure variance is primarily due to depreciation not able to be processed until finalisation of Annual Financial Report. Materials and contracts expenditure is also less than year to date budget by \$355,714 due to no year to date expenditure against the Useless Loop Road Maintenance.

LEGAL IMPLICATIONS

Section 34 of the *Local Government (Financial Management) Regulations 1996*, requires a financial report to be submitted to Council monthly.

29 OCTOBER 2025

POLICY IMPLICATIONS

There are no policy implications associated with this item.

FINANCIAL IMPLICATIONS

The financial report shows that the finances of the Shire are in line with its adopted budget.

STRATEGIC IMPLICATIONS

Outcome 7 - A transparent, resilient organisation demonstrating leadership and governance.

Strategy 7.2 – Provide appropriate services to the community in a professional and efficient manner.

Action 7.2.2 – Maintain accountability and financial responsibility in accordance with Long Term Financial Plan.

RISK MANAGEMENT

The financial report reports on the current financial status, and this is currently viewed as a low risk to Council.

SHIRE OF SHARK BAY
NOTES TO THE STATEMENT OF FINANCIAL ACTIVITY
FOR THE PERIOD ENDED 30 SEPTEMBER 2025

1 BASIS OF PREPARATION AND MATERIAL ACCOUNTING POLICIES

BASIS OF PREPARATION

This prescribed financial report has been prepared in accordance with the *Local Government Act 1995* and accompanying regulations.

Local Government Act 1995 requirements

Section 6.4(2) of the *Local Government Act 1995* read with the *Local Government (Financial Management) Regulations 1996*, prescribe that the financial report be prepared in accordance with the *Local Government Act 1995* and, to the extent that they are not inconsistent with the Act, the Australian Accounting Standards. The Australian Accounting Standards (as they apply to local governments and not-for-profit entities) and Interpretations of the Australian Accounting Standards Board were applied where no inconsistencies exist.

The *Local Government (Financial Management) Regulations 1996* specify that vested land is a right-of-use asset to be measured at cost, and is considered a zero cost concessionary lease. All right-of-use assets under zero cost concessionary leases are measured at zero cost rather than at fair value, except for vested improvements on concessionary land leases such as roads, buildings or other infrastructure which continue to be reported at fair value, as opposed to the vested land which is measured at zero cost. The measurement of vested improvements at fair value is a departure from AASB 16 which would have required the Shire to measure any vested improvements at zero cost.

Local Government (Financial Management) Regulations 1996, regulation 34 prescribes contents of the financial report. Supplementary information does not form part of the financial report.

Accounting policies which have been adopted in the preparation of this financial report have been consistently applied unless stated otherwise. Except for cash flow and rate setting information, the financial report has been prepared on the accrual basis and is based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and liabilities.

PREPARATION TIMING AND REVIEW

Date prepared: All known transactions up to 15 October 2025

Matters of non-compliance with Basis of Preparation

The following matters on non-compliance with the basis of preparation have not been correct.

1. Balances as at 30 June 2025 have not been audited and may be subject to change.
2. Depreciation has not been raised during the current financial year.

THE LOCAL GOVERNMENT REPORTING ENTITY

All funds through which the Shire controls resources to carry on its functions have been included in the financial statements forming part of this financial report.

All monies held in the Trust Fund are excluded from the financial statements.

MATERIAL ACCOUNTING POLICIES

Material accounting policies utilised in the preparation of these statements are as described within the 2025-26 Annual Budget. Please refer to the adopted budget document for details of these policies.

Critical accounting estimates and judgements

The preparation of a financial report in conformity with Australian Accounting Standards requires management to make judgements, estimates and assumptions that effect the application of policies and reported amounts of assets and liabilities, income and expenses.

The estimates and associated assumptions are based on historical experience and various other factors believed to be reasonable under the circumstances; the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

As with all estimates, the use of different assumptions could lead to material changes in the amounts reported in the financial report.

The following are estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year and further information on their nature and impact can be found in the relevant note:

- Fair value measurement of assets carried at reportable value including:
 - Property, plant and equipment
 - Infrastructure
- Impairment losses of non-financial assets
- Expected credit losses on financial assets
- Measurement of employee benefits

CURRENT AND NON-CURRENT CLASSIFICATION

In the determination of whether an asset or liability is current or non-current, consideration is given to the time when each asset or liability is expected to be settled. Unless otherwise stated assets or liabilities are classified as current if expected to be settled within the next 12 months, being the local governments' operational cycle.

KEY INFORMATION

Cash and cash equivalents include cash on hand, cash at bank, deposits available on demand with banks and other short term highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

Bank overdrafts are reported as short term borrowings in current liabilities in the statement of net current assets.

The local government classifies financial assets at amortised cost if both of the following criteria are met:

- the asset is held within a business model whose objective is to collect the contractual cashflows, and
- the contractual terms give rise to cash flows that are solely payments of principal and interest.

Financial assets at amortised cost held with registered financial institutions are listed in this note other financial assets at amortised cost are provided in Note 8 - Other assets.

KEY INFORMATION

Initial recognition

An item of property, plant and equipment or infrastructure that qualifies for recognition as an asset is measured at its cost.

Upon initial recognition, cost is determined as the amount paid (or other consideration given) to acquire the assets, plus costs incidental to the acquisition. The cost of non-current assets constructed by the Shire includes the cost of all materials used in construction, direct labour on the project and an appropriate proportion of variable and fixed overheads. For assets acquired at zero cost or otherwise significantly less than fair value, cost is determined as fair value at the date of acquisition.

Assets for which the fair value as at the date of acquisition is under \$5,000 are not recognised as an asset in accordance with *Local Government (Financial Management) Regulation 17A(5)*. These assets are expensed immediately.

Where multiple individual low value assets are purchased together as part of a larger asset or collectively forming a larger asset exceeding the threshold, the individual assets are recognised as one asset and capitalised.

Individual assets that are land, buildings and infrastructure acquired between scheduled revaluation dates of the asset class in accordance with the Shire's revaluation policy, are recognised at cost and disclosed as being at reportable value.

Measurement after recognition

Plant and equipment including furniture and equipment and right-of-use assets (other than vested improvements) are measured using the cost model as required under *Local Government (Financial Management) Regulation 17A(2)*. Assets held under the cost model are carried at cost less accumulated depreciation and any impairment losses being their reportable value.

Reportable Value

In accordance with *Local Government (Financial Management) Regulation 17A(2)*, the carrying amount of non-financial assets that are land and buildings classified as property, plant and equipment, investment properties, infrastructure or vested improvements that the local government controls.

Reportable value is for the purpose of *Local Government (Financial Management) Regulation 17A(4)* is the fair value of the asset at its last valuation date minus (to the extent applicable) the accumulated depreciation and any accumulated impairment losses in respect of the non-financial asset subsequent to its last valuation date.

KEY INFORMATION

Trade and other receivables include amounts due from ratepayers for unpaid rates and service charges and other amounts due from third parties for goods sold and services performed in the ordinary course of business.

Trade receivables are recognised at original invoice amount less any allowances for uncollectable amounts (i.e. impairment). The carrying amount of net trade receivables is equivalent to fair value as it is due for settlement within 30 days.

Classification and subsequent measurement

Receivables which are generally due for settlement within 30 days except rates receivables which are expected to be collected within 12 months are classified as current assets. All other receivables such as, deferred pensioner rates receivable after the end of the reporting period are classified as non-current assets.

Trade and other receivables are held with the objective to collect the contractual cashflows and therefore the Shire measures them subsequently at amortised cost using the effective interest rate method.

KEY INFORMATION

Inventory

Inventories are measured at the lower of cost and net realisable value.

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

Contract assets

A contract asset is the right to consideration in exchange for goods or services the entity has transferred to a customer when that right is conditioned on something other than the passage of time.

KEY INFORMATION

Trade and other payables represent liabilities for goods and services provided to the Shire prior to the end of the period that are unpaid and arise when the Shire becomes obliged to make future payments in respect of the purchase of these goods and services. The amounts are unsecured, are recognised as a current liability and are normally paid within 30 days of recognition. The carrying amounts of trade and other payables are considered to be the same as their fair values, due to their short-term nature.

KEY INFORMATION

The Shire has elected to recognise borrowing costs as an expense when incurred regardless of how the borrowings are applied.

Fair values of borrowings are not materially different to their carrying amounts, since the interest payable on those borrowings is either close to current market rates or the borrowings are of a short term nature.

KEY INFORMATION

Provisions

Provisions are recognised when the Shire has a present legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured.

Provisions are measured using the best estimate of the amounts required to settle the obligation at the end of the reporting period.

Employee Related Provisions

Short-term employee benefits

Provision is made for the Shire's obligations for short-term employee benefits. Short-term employee benefits are benefits (other than termination benefits) that are expected to be settled wholly before 12 months after the end of the annual reporting period in which the employees render the related service, including wages, salaries and sick leave. Short-term employee benefits are measured at the (undiscounted) amounts expected to be paid when the obligation is settled.

The Shire's obligations for short-term employee benefits such as wages, salaries and sick leave are recognised as a part of current trade and other payables in the calculation of net current assets.

Other long-term employee benefits

The Shire's obligations for employees' annual leave and long service leave entitlements are recognised as employee related provisions in the statement of financial position.

Long-term employee benefits are measured at the present value of the expected future payments to be made to employees. Expected future payments incorporate anticipated future wage and salary levels, durations of service and employee departures and are discounted at rates determined by reference to market yields at the end of the reporting period on government bonds that have maturity dates that approximate the terms of the obligations. Any remeasurements for changes in assumptions of obligations for other long-term employee benefits are recognised in profit or loss in the periods in which the changes occur. The Shire's obligations for long-term employee benefits are presented as non-current provisions in its statement of financial position, except where the Shire does not have an unconditional right to defer settlement for at least 12 months after the end of the reporting period, in which case the obligations are presented as current provisions.

Contract liabilities

An entity's obligation to transfer goods or services to a customer for which the entity has received consideration (or the amount is due) from the customer.

Capital grant/contribution liabilities

Grants to acquire or construct recognisable non-financial assets to identified specifications be constructed to be controlled by the Shire are recognised as a liability until such time as the Shire satisfies its obligations under the agreement.

Council Resolution

That Council:

- 1. Resolve to advise the Department of Planning, Lands and Heritage that the Shire of Shark Bay has no objections to a new Harbour Reserve as proposed by the Department of Transport.**

FOR: Cr's Bellottie, Cowell, Fenny, Johns, Ridgley, Smith and Stubberfield
AGAINST: Nil
ABSENT: Nil

BACKGROUND

- **General**

There is a Management Order to the Department of Transport over Reserve 38444, which is located on the Denham foreshore.

29 OCTOBER 2025

The Department of Planning, Lands and Heritage has advised that the waters adjacent to Denham, and in Shark Bay, are vested to the Minister of Transport under the *Marine and Harbours Act 1981*.

The gazettal instrument which details the area and a map is included as Attachment 1.

This area is also linked to the *Shipping and Pilotage Act 1967* as it relates to the Port of Carnarvon – refer Attachment 2.

- **August Council Meeting**

A report on this matter was referred to the August 2025 Ordinary Meeting of Council, however there were questions about whether the Department of Transport would retain control over waters to the immediate west and east of the proposed new harbour reserve in Denham.

Accordingly the item was withdrawn from the August 2025 agenda.

- **Additional Information**

Town Planning Innovations has liaised directly with the Department of Transport to gain advice on the areas to the west and east of the proposed harbour reserve in Denham – refer map overpage.

29 OCTOBER 2025

Above: Map showing the areas queried with the Department of Transport and the Department of Planning, Lands and Heritage in blue outline

The Department of Transport has confirmed that those areas will revert to Unallocated Crown Land and fall under the jurisdiction of the Department of Planning, Lands and Heritage.

The Department of Transport advice has been verified by Department of Planning, Lands and Heritage who advise that:

'The land currently remains part of the Port of Carnarvon as gazetted in 1981. The Department of Transport are currently considering the reduction of the Port of Carnarvon into smaller areas proclaimed under the Marine and Harbours Act 1981. The Crown reserve proposed by the Department of Transport (the hatched area on the map) is one of these areas.

It should be noted that all waters within the boundaries of the State (up to 3 nautical miles from High Water Mark), unless stated otherwise (e.g. Port of Carnarvon, Marine Reserve 7), is considered unallocated Crown land despite being shown as 'water' on Landgate's spatial cadastre database.

The Department of Planning, Lands and Heritage would become responsible agency for the Unallocated Crown land either side of the reserve when/if the reduced area is proclaimed under the Marine and Harbours Act 1981.'

29 OCTOBER 2025

COMMENT

The Department of Planning, Lands and Heritage are considering a proposal by the Department of Transport for the creation of a Crown Reserve for 'Harbour Purposes'.

The proposed Crown Reserve will comprise of a 1008.8 hectare portion of seabed and will be managed by the Department of Transport – refer Attachment 3.

The proposed reserve forms part of the existing Port of Carnarvon and directly adjoins Marine Reserve No. 7 and Shire of Shark Bay-managed Reserve 39569 for 'Recreation and Foreshore Protection' at High Water Mark.

Town Planning Innovations has liaised with the Department of Planning, Lands and Heritage to gain an understanding of why the new reserve is being pursued. In summary, the Department of Planning, Lands and Heritage has advised that:

- The creation of the new reserve aligns with work that is currently being undertaken by the Department of Transport to support the state's port governance reforms. These reforms involve transferring regulatory responsibility for certain ports from the Department of Transport to relevant port authorities and consolidating some port authorities.
- Control over the shipping ports in the Port of Carnarvon will be transferred to the Midwest Port Authority. However, the Midwest Port Authority do not want jurisdiction over the entire area covered in the existing Port of Carnarvon.
- New ports will be created at various locations where shipping activity occurs within the existing Port of Carnarvon area, specifically at Cape Cuvier and Useless Loop.

29 OCTOBER 2025

- In the future the existing Port of Carnarvon will be dissolved.
- The creation of this new Harbour Reserve in Denham, is aimed at preserving the Department of Transport's control over existing facilities.
- The new Reserve is based on the operational needs of the Denham Maritime Facility (including potential future development), following the dissolution of the Port of Carnarvon.

Although the Department of Transport currently has jurisdiction over this area, the Department of Planning, Lands and Heritage has advised that the boundary changes are to ensure that they have unbroken tenure over the area under the Land Administration Act 1997.

Town Planning Innovations recommends that the Shire support the Department of Transport proposal for a new reserve, as it is being proposed to provide them with continued tenure of the waters adjacent to Denham.

Town Planning Innovations has queried if the new Harbour Reserve will impact on public activities in the water. The Department of Planning, Lands and Heritage has advised that the new Harbour Reserve should not materially affect the way that the area is being managed or used.

LEGAL IMPLICATIONS

State Government Port Management changes/ reform – The Department of Transport (DoT) oversees the management of ports governed under the Shipping and Pilotage Act 1967.

As part of the State Government's Ports Governance Reform Program, all trading ports in WA will be brought under the *Port Authorities Act 1999*, transferring management from DoT to the relevant port authority.

Work is underway to transfer regulatory responsibility for the remaining trading ports declared under the *Shipping and Pilotage Act 1967*. This includes ports of Barrow Island, Onslow, Port Walcott, Useless Loop, Cape Cuvier, and Cape Preston.¹

Council Resolution
That Council:

1. **Note that:**
 - (a) **There is a separate Confidential Report Item No 16.1 in this Agenda on Reserve 49809.**
 - (b) **The Shire has a Management Order over Reserve 49809 with the power to issue Licences to parties to use portions of the common, for a maximum of 5 years, subject to consent by the Minister for Lands.**
 - € **The applicant, Mr Mark Smith, has a current Licence for use of an 8 hectare portion of Reserve 49809 for up to 8 horses. The current Licence is valid until the 31 October 2027.**
6. **Provide 'in principle' support for an expanded Licence area from 8 hectares to 34.5 hectares subject to Licence conditions being refined by Shire Administration.**
6. **Resolve to advertise the application for an expanded Licence for a period of 21 days through publication of a Public Notice on the Shire website.**
4. **Resolve to refer the proposed new access to Monkey Mia Road to Main Roads Western Australia for comment.**
5. **Authorise the Chief Executive Officer to advise the applicant that:**
 - (a) **Lodgement of an initial \$570.00 application fee is required for the current application in accordance with the Shire of Shark Bay Fees and Charges 2025/2026.**
 - (b) **The Shire will provide a list of Draft Revised Licence conditions;**
 - € **Any new Licence may be prepared by the Shires solicitor, McLeods, at the applicants cost.**
 - (d) **Annual fees and charges applicable to the reserve may change.**
 - € **Any animal establishment in the expanded Licence area, which includes the boarding, training or caring of animals for commercial purposes, and any clearing of vegetation for a new arena in the expanded Licence area, requires separate planning approval. Structures may also require separate planning and/or building approval.**
6. **Authorise the Chief Executive Officer to progress any Licence and seek written approval by the Minister for Lands via the Department of Planning, Lands and Heritage.**

BACKGROUND

- ***Reserve Details***

Reserve 49809 is crown land which comprises two lots, being:

- Lot 908 on Deposited Plan 408907, and
- Lot 8000 on Deposited Plan 419413.

A Reserve Report from LandGate is included as Attachment 1.

The Shire has a Management Order over the reserve which allows it to issue Licences to other parties, subject to written approval by the Minister for Lands. Licences can be for a maximum of 5 years, with Ministerial approval.

The Management Order includes conditions which state that:

- To be used for designated purpose of “common” only.
- Power to Licence for the designated purpose is granted for the whole or any portion thereof for any term not exceeding five (5) years from the date of the Licence subject to the approval in writing of the Minister for Lands being first obtained to each and every licence pursuant also to the provisions of section 19 of the *Land Administration Act 1997*.

There is no clear definition of ‘common’ or the activities that can be undertaken within the common, however Town Planning Innovations is of the understanding that the area has historically been used for agistment and stock animals.

The total area of the reserve is 1186.09 hectares.

29 OCTOBER 2025

Above: Outline of Lot 908 in blue. Outline of Lot 8000 in Reserve 49809 in red.

- **History of Licences**

The Shire has issued Licences to various parties over the years, to use parts of the Shire Common, within Lot 8000, mainly for the keeping of animals such as camels, horses, or goats.

There is only one current Licence for Reserve 49809 issued to Mr Mark Smith, which is valid until 31 October 2027. The Licence was approved by the Minister for Lands and allows for up to 8 horses and the use of 8 hectares.

A copy of the existing Licence is included as Attachment 2.

- **Existing Planning Approval (Animal Establishment)**

A planning application for an animal establishment, feed storage building and training arena was considered by Council at the Ordinary Meeting held on the 29 July 2020.

The approval for Mr Mark Smith was for the land use and structures, associated with his existing Licence area.

29 OCTOBER 2025

COMMENT

- **Licence Process / Advertising**

Past Licence Applications for the Shire Common have been processed by the previous Shire Chief Executive Officer and the last known Licence to be referred to Council was from 2020 for Mr Mark Smith.

Town Planning Innovations is assisting the Shire with new Licence applications, however:

- a) There is no set process for any new Licence application, although all Licences have been referred to Council;
- b) There is no current adopted Policy for Licence applications; and
- c) Licences are not a town planning matter.

Town Planning Innovations recommends a precautionary approach be taken to include public advertising of any new application, simply as the Shire common is effectively a public reserve.

Advertising allows the process to be open and accountable, until such time as any Policy is developed.

- **Description of Proposed Licence Area**

The new application seeks a Licence area of 34.5 hectares.

Above: Existing 8 hectare Licence shown in red. Proposed expanded new Licence shown in blue.

Map supplied by Shire

29 OCTOBER 2025

- **Description of Application**

The new application is included as Attachment 3.

There are several components including:

- Potential new fencing of the expanded Licence area;
- Proposed new access from Monkey Mia Road;
- Internal walk trails (for horses);
- Proposed new horse pens of approximately 1500m²;
- Proposed new paddocks adjacent to the Common Road to enable a more effective paddock rotation system;
- Proposed 30 metre by 60 metre horse arena;
- Proposed 2 hectare non-commercial orchard;
- The keeping of up to 20 chickens (for personal use).

The applicant has indicated that the facilities would be used for their own horses, however visitors will also be able to agist horses (for short periods) in the Licence area, and use the proposed horse arena.

Town Planning Innovations has liaised with the Shire to gain a better understanding of the application, and compiled an additional site plan included as Attachment 4.

LEGAL IMPLICATIONS

Land Administration Act 1997 – Section 18 outlines that Ministerial approval is required for any transaction relating to Crown Land, such as the grant of a Licence.

The Shires ability to issue Licences comes from the Management Order for Reserve 49809.

Local Laws on Local Government Property - The Shire Common crosses over into the Local Laws as it defines Local Government Property as including anything that is not a thoroughfare and where the '*Local Government is the management body under the Land Administration Act 1997*'.

Clause 2.7 of the Local Law outlines the activities that the Shire can approve. It does not mention agistment but includes that a person may '*bring, ride or drive an animal*'.

In Part 3 Permits, under Clause 3.1 it states that '*This Part does not apply to a person who uses or occupies Local Government property under a written agreement with the Local Government to do so.*'

TPI is of the view that it can be construed that any Licence granted to a person to use the Common Property is a written agreement with the local government, so a separate Permit under the Local Law is not likely required.

Shire of Shark Bay Local Planning Scheme No 4 – Reserve 49809 is zoned Rural. A Licence does not negate the need for planning approvals and /or Building Permits as required.

29 OCTOBER 2025

POLICY IMPLICATIONS

There is no known adopted Council Policy on Licences and/or the Shire Common.

Minutes from the Ordinary Council meeting held on the 27 August 2014 state that:

'The Council in 2009 considered a policy in relation to the common and advertised the policy for comment (attached at the end of the item). It is unclear if the policy was formally adopted, however the principles of the policy appeared to have been put into place and it is now referred to as a Management Statement'.

The 'Management Statement' is a replica of the unadopted Policy – refer Attachment 5. The Management Statement does not appear to have any legislative base or status.

FINANCIAL IMPLICATIONS

The Shire pays consultancy fees to Liz Bushby of Town Planning Innovations for planning and general advice.

Licence holders pay annual fees to the Shire, and supply their own annual Certificate of Currency for Public Liability Insurance.

The Shire of Shark Bay Fees and Charges 2025/2026 include the following:

Reserve 49809 (Denham Common - Approved designated areas only)					
Licence to Occupy - Non Commercial Use	Council	Y		Per annum	35303946
Licence to Occupy - Commercial Use	Council	Y	\$570.00	Per annum	35303946

The Manager of Works has advised that the Shire does not incur any ongoing maintenance costs associated with Reserve 49809. There is a bore at the Shire oval which provides a water supply to several sites in town including the Shire Common and the airport.

STRATEGIC IMPLICATIONS

There are no known strategic implications associated with the application.

RISK MANAGEMENT

TPI is of the view that there is some risk if the licence conditions are not reviewed.

Dear Rhonda,

S18 MINISTERS CONSENT: LICENCE OVER PART RESERVE 49809 BEING PART LOT 908 ON DEPOSITED PLAN 408907 AND PART LOT 8000 ON DEPOSITED PLAN 419413 BETWEEN SHIRE OF SHARK BAY (COUNCIL) AND MARK CORBETT SMITH (OCCUPIER)

Thank you for your email dated 4 November 2022 regarding permission to license part Reserve 49809 being part Lot 908 on Deposited Plan 408907 and part Lot 8000 on Deposited Plan 419413 between the above parties for a term of five years commencing 1 November 2022. Reserve 49809 is set aside for the purpose of "Common" with a Management Order to the Shire of Shark Bay with power to licence for any term not exceeding five (5) years, subject to the prior consent of the Minister for Lands (Minister).

In accordance with section 18 of the *Land Administration Act 1997* (LAA) approval from the Minister is granted to the proposed Licence provided to the Department of Planning, Lands and Heritage (Department) by email dated 8 March 2023 on the condition that the final Licence executed by the parties is on the same terms as that provided to the Department with that email. If the final document executed by the parties is not on the approved terms, then it may be void under section 18 of the LAA.

Please note that this approval is for the purposes of section 18 of the LAA only and does not constitute an endorsement as to the terms and effect of the document. The Department cannot provide any advice in respect of the Licence and recommends that each party obtain their own independent advice as to their rights and obligations under the Licence.

Should you have any enquiries, please don't hesitate to contact me on any of the above details.
Yours sincerely,

Request for Additional Hectarage for Horse Agistment, Orchard and Free-range Chickens

To whom it may concern,

As the current lessee of Licence No 1/2022 on Reserve 49809 in the "Common", I am writing to formally request an increase to the approved hectares from eight (8) to thirty-five (35) to include two (2) hectares of orchards and to include the ability to have up to 20 chickens.

The primary reasons for this request are as follows:

1. ****Enhanced Safety****: Increasing the hectarage would allow for a fully fenced designated area, ensuring a safe environment for riding and pedestrians void of vehicles including motor bikes and buggies licenced and unlicenced. In the time we have been actively riding on the property and surrounds, we have experienced vehicles exceeding the regulated speed limit and we believe having this designated area is integra for safety. This is particularly important for the well-being of both the horses and the riders, providing them with ample space to move freely and safely on trail rides.

2. ****Paddock Rotation and Shaded Areas****: With additional hectarage, we would be able to implement a more effective paddock rotation system. This would significantly improve the health of the pasture, prevent overgrazing, and ensure that the horses have access to fresh grazing areas. Additionally, each paddock will have shaded areas and fresh water to protect the horses from harsh weather conditions, further enhancing their comfort and welfare and complementing the existing approved shaded structures, facility shed and round arena.

3. ****Improved Horse Welfare****: More space would provide the horses with a better quality of life, reducing stress and preventing injuries by avoiding overcrowding. It would also allow for better segregation of horses based on their specific needs and behaviours. Additionally, the increased area would allow for an arena approximately 30mx60m in size to adequately train and exercise horse.

4. ****Horse Arena****: The availability of an arena not only provides an adequate space for us to exercise and continue our horse's development, is can also encourage people to travel from other areas to use the facility during agistment periods. This could also bring additional revenue to the local community in the form of tourism and accommodation. Another benefit of an arena is the ability exercise horses in cooler temperatures during the extended summer months.
5. ****Short Term Agistment**** Short term agistment for horses only, in designated paddocks for people who regularly travel with their horses, will greatly benefit our community by enhancing visitors to our area who wouldn't normally travel here. This is an area we have identified that is lacking in Shark Bay as there is simply nowhere for horse owners to safely house their livestock while they enjoy all Shark Bay has to offer. This would aim to provide temporary agistment for horses of people who wish to experience the beauty and charm of our area while also offering safe riding areas.
6. ****Long-term Sustainability****: Adequate space is essential for sustainable land management practices. Increasing the hectareage will help maintain the ecological balance, ensuring the longevity and productivity of the land for future use.

29 OCTOBER 2025

7. ****Orchard Development****: These thirty-five (35) hectares would include two (2) hectares for the development of an orchard. This will not only contribute to the overall sustainability of the property but also provide beneficial resources for both the horses and the community.

8. ****Chickens**** The ability to have up to 20 chickens would be highly beneficial for our planned orchard. Free-range chickens roaming freely during the daytime would contribute to a healthier and more sustainable environment, controlling pests by eating insects and weeds, reducing the need for chemical pesticides. Additionally, free-range chickens would produce eggs that we can consume. Their natural foraging behaviour also promotes soil aeration and fertilization, enhancing the overall health of the soil in the orchard. By incorporating free-range chickens, we can enjoy fresh, high-quality eggs while supporting eco-friendly farming practices.

I believe that expanding the allocated hectareage to 35 hectares, with the inclusion of full fencing, shaded areas, and an orchard and free-range chickens, will greatly benefit the overall experience on our lease and contribute to a safer, more efficient, and humane environment for the horses. I kindly request your favourable consideration of this proposal.

Thank you for your time and attention to this matter. I look forward to your positive response.

Sincerely,

Mark Smith
