

BUSH FIRE NOTICE AND REQUIREMENTS

NOTICE TO ALL OWNERS AND/OR OCCUPIERS OF LAND IN THE SHIRE OF SHARK BAY

In accordance with Section 33 of the Bush Fires Act 1954, you are required to carry out fire prevention work on land owned or occupied by you as set out in this Notice by the dates specified. If the requirements of this Notice are not met by the due date or are not completed to the satisfaction of an inspecting officer, an on-the-spot fine of \$250 will be issued. The maximum fine for failure to comply is \$5,000. Council can also enter upon the land and carry out required works at the owner/occupier's expense. (Section 33 Bush Fires Act 1954).

All landowners and occupiers of land within the Shire of Shark Bay shall before the 1st day of November in each year (or within 14 days of becoming the owner or occupier of land if after that date) clear firebreaks and maintain them up to and including the 30th day of April the following year, in accordance with this notice. Where a property is affected by an approved bushfire management plan, the property owner and or occupier must still comply with all requirements in this notice and with ALL additional requirements outlined within that plan.

ADDITIONAL WORKS

In addition to the requirements of this Notice, regardless of land size and location, you may be required to carry out further fire prevention works to reduce hazards considered necessary by an Authorised Officer. Any further requirement would be specified by way of a “work order” forwarded to the address of the owner(s) and/or occupier(s). Some examples of these could be:

- remove accumulated fuel such as leaf litter, twigs, dead bush, and dead trees capable of carrying a running fire
- reduce unmanaged grasses/weeds by slashing, mowing or other means
- reduce long grasses in areas not being grazed or cultivated by slashing, mowing, bailing, or by other means
- reduce vegetation to a low-threat state from the outer edge of the firebreak through to the property boundary (e.g., no long grass, overhanging branches)

FIREBREAKS

A strip of land free of all flammable material with the intention of minimizing the spread or extension of a bushfire and provide safe access on the property for emergency vehicles and other firefighting operations. Such firebreaks may be constructed by one or more of the following methods:

- Ploughing
- Cultivating
- Scarifying
- Raking
- Burning
- Chemical spraying
